2019 AIS Research and Management Showcase

Registration now open!

Register today for the 2019 Aquatic Invasive Species Research and Management Showcase

[Join the Minnesota Aquatic Invasive Species Research Center on campus on Wednesday, September 18](#) for a selection of talks about the latest MAISRC research on starry stonewort, zebra mussels, spiny waterflea, invasive carp, and much more. The list of breakout sessions and full presentation descriptions will be announced soon.

Interact with faculty over lunch, get an inside look into our state-of-the-art lab, learn tools you can apply on your own, and enjoy a poster session reception.

This is the best opportunity to learn all about MAISRC's research and the latest in AIS management recommendations. [Space is limited and pre-registration is required](#). If you wish to attend a lab tour, please be sure to choose that option when registering. Note that all lab tours are identical.

Register today!

Learn about the latest in AIS research

Take a lab tour with hands-on demos

Enjoy a poster session reception

"It was an excellent event -- well-organized and excellent presenters and topics. Many times I go to meetings and trainings and don't feel it was worth my time. I drove 2 1/2 hours to come to this event and it was definitely worth it! Thank you!"
