VINYL FLOOR

Product Introduction

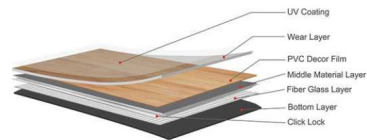

PVC Vinyl Floor , also called PVC Plank Floor or LVT Floor, which is high - tech new ground decoration material, made of the natural marble powder to form solid high- density and high -fiber net basic layer, and also is covered with super strong polymer PVC wear layer. As the model of high-tech new ground material in 21st century, it is produced by multiple and refined processes. The product has super strong wear resistance , bright and non slip surface with 4000 wood, carpet and stone patterns. According to the structure and installation, the types can be divided into 4 types: Dry Back, Self Adhesive(Glue Down) , Click System and Loose Lay.
