Royal Caribbean's Star Class, "A Gated Community On The World's Largest Cruise Ships."

Royal Caribbean Cruises has created what should be considered the eighth wonder of the world ... two ships that would, in today's world, dwarf the Titanic. These floating resort hotels and spas with restaurants, casinos, theatres and shopping malls all in one easily house over 8,000 passengers and crewmembers. However, for those who thrive on luxury travel and prefer a more exclusive experience, Royal Caribbean welcomes you to their Star Class. The Star Class is comparable to a gated community but within a floating paradise ... and Royal Caribbean missed nothing when it came to creating this select experience.

The Star Class is the new definition of VIP. It's more than priority access; it's ALL access starting with the most spacious and luxurious suites at sea. Additionally, each Star Class member is provided a VIP executive concierge referred to as "Royal Genie." There are only 22 Royal Genie's within the company, each hand-selected from thousands of applicants across the globe. They are the ultimate insider, crafting exclusive one-of-a-kind experiences, all designed around you and your family. Your Royal Genie doesn't just tend to your suite; they make the entire ship your suite by crafting personalized VIP experiences

tailored to your exact tastes.
