About Prima Exports

Where Proven Experience Meets Protein Precision.

Prima Exports is a trusted supplier of premium-quality cut meats from India, serving global markets with consistent, hygienically processed meat solutions. While our meat export division is focused on delivering precision-cut, market-ready products, our foundation lies in over 40 years of operational experience in India's dairy sector which gives us a sharp edge in food safety, cold chain logistics, and product standardization.

With this strong backbone, we bring the same discipline and expertise to our meat operations ensuring every cut meets global quality, hygiene, and consistency standards. Whether chilled or frozen, bone-in or boneless, Halal or custom-specified, Prima Exports is built to deliver trust with every shipment.

Prima Exports is your partner for authentic Indian food products—with quality you can trust and experience you can count on.

Our Advantage

Halal-Compliant Processing

Halal slaughter performed by trained personnel under recognized certification bodies. Halal Certificate issued with each consignment for GCC, Southeast Asia, and other markets.

Specification-Based Fabrication

Cuts delivered to precise client specifications including weight range tolerances ($\pm 2\%$), dimensional accuracy, and trim levels (e.g., 85/15 lean-fat), suitable for both foodservice and industrial use.

Controlled Environment Processing

Meat is processed in ISO 22000:2018 and HACCP-certified units equipped with stainless steel infrastructure, air filtration systems, and pathogen-controlled zones.

Advanced Packaging Formats

Available in vacuum pack, MAP (Modified Atmosphere Packaging), poly-liner bulk packs, and export-grade cartons. All packaging complies with destination market labeling and for-the-shelf regulations.
