Telangana, India.

ABOUT US

Prima Foodtech, established in 2018, is an industry leading manufacturer of IQF Frozen Fruit and Vegetables and stands out as one of the first companies in **Telangana, India**, to realize the potential of frozen food. Prima was established by the founders of Creamline Dairy Products Ltd, who are seasoned professionals in the food processing sector. With their experience in cold chain, logistics & supply chain infrastructure development, they have developed a world class cold chain complex. Acting like ice-breakers in the traditional food industry of the country, Prima has raised the bar for quality food products at affordable rates.

WHY CHOOSE US?

"We guarantee the highest level of service and quality of food."

SCAN THE QR CODE FOR A FACTORY TOUR!

IQF & Blast Freeze

Using the best-in-class JBT German machinery built in compliance to all international standards and skilled in-house labor, we take pride in our precise process.

30 ton Processing per day

With a high processing capacity, we ensure fast order processing and delivery.

Sustainability

Our factory embraces sustainability through solar energy utilization, circular economy practices including using produce waste for dairy farms, waste disposal solutions, rainwater harvesting, and Variable Frequency Drive (VFD) implementation

1500 ton Freezer Capacity

Prima houses 1,500 metric tons of sub-zero cold storage for processed foods and 10,000 metric tons above zero cold storage for perishable, unprocessed consumables. This guarantees that your favorite tropical produce is available all year round.

Hygiene

We adhere to strict implementations of hygiene and sanitation. Our employees are at the front line of quality control and consistently exceed FDA guidelines.

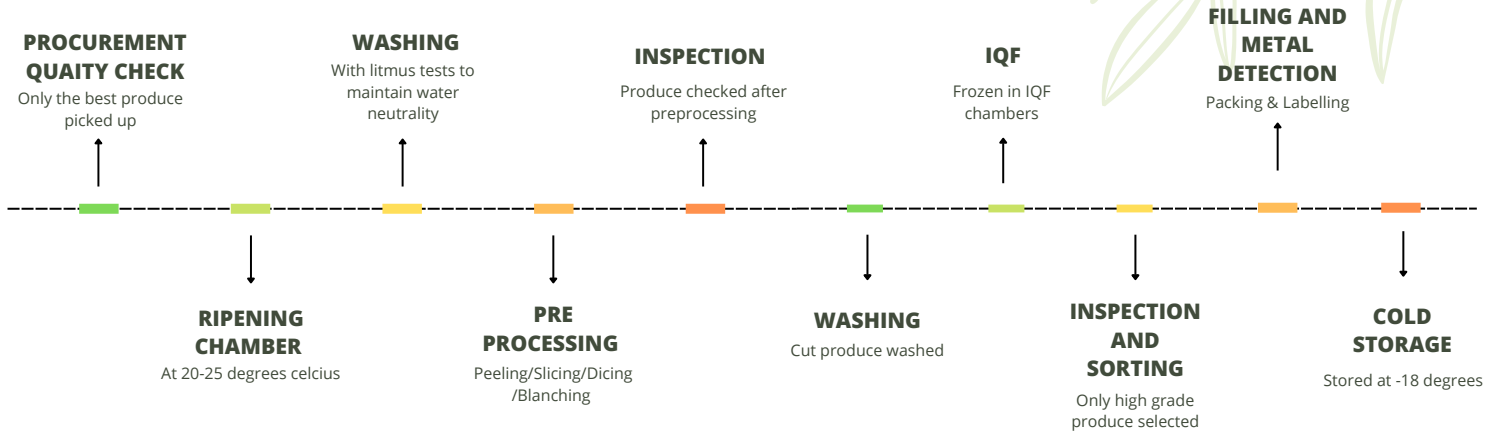

Tractability

Our backward farming integration over 1000+ acres in and around Telangana ensures freshness, traceability, and reliability, offering you the highest graded products and product consistency.

PRODUCTS

CUSTOMIZATION

Customization of process, cuts and mixes is possible on request.

CO-PACKING

All manufactured products are exported in refrigerated containers maintained at -18° C to their final destination. Each 'full container load' (FCL) holds up to 23 MT of produce.

Retail Packaging: Custom retail packaging is undertaken in clear or custom printed plastic pouches (1 kg, 2.5kg and 5kg) in cartons, or as specified by customers.

Industrial Packaging: Packing is in blue food poly-bags sealed in 10 Kg five-ply outer industrial cartons, labelled according to customer specs.
