NATURE STONE

Revestimiento decorativo de interiores a base de resinas acrílicas y áridos minerales seleccionados. Esta composición le da un aspecto mineral y muy natural. Además de tener un acabado extra mate.
Para uso en exteriores, es necesario aplicar un protector siloxánico como acabado final.

Decorative indoor coating based on acrylic resins and selected mineral aggregates. This composition gives it a very natural, mineral appearance. It also has an extra-matte finish.

For exterior applications, a siloxane - based protective coating must be applied as the final finish.
