WHY TRUE FITNESS

BUILDING EQUIPMENT AND RELATIONSHIPS WITH INTEGRITY

Since 1981, TRUE Fitness has been dedicated to building high-quality commercial fitness equipment that is dependable, innovative, and easy to use.

Today, TRUE Fitness is a global leader in premium fitness solutions. With unparalleled service, we provide you and your customers peace of mind at every step. As your dedicated partner, you can depend on TRUE Fitness to do whatever it takes to keep your facility running strong. You can count on us to provide equipment with lasting durability, reliable performance, and a team dedicated to optimizing the life of your equipment.

SOLUTIONS AS PREMIUM AS OUR PRODUCTS

FACILITY PLANNING

Our planning experts work with you to create the optimal layout and combination of machines for spaces of every size and configuration.

CUSTOMER-FIRST SUPPORT

Putting customers first is the heart of everything we do. We're dedicated to providing exceptional service, making sure we prioritize what's right for you and your facility.

STREAMLINED FULFILLMENT

Our priority is to ensure seamless efficiency. From our long-lasting equipment to quick turnaround times, we're committed to minimizing interruptions and maximizing exercise spaces.

HIGHLIGHT YOUR BRAND

Welcome guests by adding your facility's logo on consoles. Customizable upholstery options, paint color, and facility branding are also available on select strength equipment.

OUR BRANDS

TRUE[®] **PREMIUM FITNESS EQUIPMENT**

TRUE, our flagship brand, has been dedicated to producing premium fitness equipment for over 40 years. Each TRUE piece is made with the end-user in mind, aiding in the continued development of sophisticated features and designs that will stand the test of time.

Offering equipment suitable for various markets, TRUE has a full portfolio of strength, cardio, and flexibility products. We are proud to provide TRUE products around the globe.

OUR BRANDS

Octane

DYNAMIC INNOVATIONS

In 2020, Octane became part of the TRUE Fitness family. Octane offers a variety of dynamic and high-performance modalities for the cardio floor, HIIT area and more. Backed by TRUE Fitness' dedication to quality, design, and service, Octane aims to be not only your equipment supplier, but your strategic partner providing distinctive custom solutions and support.

Octane equipment fuels markets around the world including: health clubs, studios, YMCAs, colleges and universities, professional sports teams, the US military and more.

CARDIO

A photograph of a modern glass and metal railing system, likely in a gym or office building. The railing consists of vertical glass panels held by metal brackets and posts. The background shows a staircase and other architectural details of a modern building.

TRUE FITNESS CARDIO

KEEP YOUR FACILITY RUNNING AND EXERCISERS MOTIVATED

Our team of engineers and product developers are committed to keeping a pulse on the fitness industry and providing the most innovative and user-friendly machines on the market. Help your facility stand out with our cutting edge suite of cardio products that will keep users coming back.

VAPOR SERIES

A row of True Fitness Vapor Series treadmills in a gym setting. The treadmills are black with blue accents and are arranged in a line. The gym has a dark ceiling with exposed pipes and lights. The floor is made of large, light-colored tiles.

TRUE FITNESS CARDIO:
VAPOR SERIES

BUILT FOR INTENSE WORKOUTS

Take your facility to the next level with the Vapor Series. Designed and built to withstand the toughest workouts, each piece provides users with the high-performance and unique features they demand to ensure they're pushed to their limits.

VAPOR SERIES USER AMENITIES

HIGH-PERFORMANCE

Whether your facility caters to elite athletes or dedicated fitness enthusiasts, the Vapor Series meets the demands of high-performance workouts by ensuring each session is intense and effective.

UNIQUE FEATURES

Set your facility apart with equipment that is like no other. Ranging from 30% incline on the Alpine Runner to total body training on the Spectrum, the Vapor Series will provide users with a unique and effective workout.

PREMIUM QUALITY

Built to withstand the most rigorous workouts and offering best-in-class serviceability, the Vapor Series is designed to not only be durable but also easy to maintain for your facility.

MULTIPLE CONSOLE OPTIONS

Ranging from the intuitive LED to a more robust 16" Touchscreen, Unite Consoles meet the needs of all users.

STRYKER SLAT TREADMILL

Provides excellent durability thanks to its robust TRUE design and premium components. The hood-less design allows users of all sizes to utilize the full running surface with their natural gait pattern.

- + Requires less maintenance; no need for tracking adjustments, waxing, or flipping deck with slat system
- + Trouble-free serviceability with adjustable, full swivel castors and easy access to motor and electronics
- + Shock-absorbing slat design provides user extra cushion where feet impact
- + Max speed of 12mph and incline of 25% for high-performance training
- + 3 emergency stops for safety

ALPINE RUNNER INCLINE TRAINER TREADMILL

The ultimate example of our commitment to excellence. Studies by an independent lab show the Alpine Runner Incline Trainer is more effective at burning fat and calories than standard treadmills.

- + Incline range of -3% to 30%
- + Patented incline system reduces motor wear and tear over time
- + Dual brake for reliable workout performance and safety
- + Vertical upper handgrips provide support at highest incline
- + Optional step available

PALISADE CLIMBER

Offering premier safety features, best-in-class serviceability and versatile ease-of-use, our Palisade Climber has been crafted to be rich in experience for exercisers and easy to maintain for your facility.

- + One of the deepest steps in the industry with 217 sq. inches per step
- + AC motor for durability, low noise, and smooth motion
- + Step-up assistance with rear steps and integrated side pegs
- + Dual-braking system for extra safety

SPECTRUM ELLIPTICAL

One of the most versatile cardio machines on the market—a stepper, elliptical and runner all-in-one machine. The Spectrum Elliptical provides one of the largest adjustable strides in the industry and versatility for every user.

- + Core Drive® System
- + Electromagnetic eddy current brake
- + 13" to 30" adjustable stride
- + Soft step cushioned footpads
- + Ergonomic multi-grip handles

APEX SERIES

TRUE FITNESS CARDIO:
APEX SERIES

TRUE DURABILITY WITH SLEEK AESTHETICS

Introducing the new Apex Series: our premium cardio line, crafted with over four decades of precise engineering experience. This series boasts a sleek aesthetic and robust design, embodying the seamless fusion of TRUE engineering, style, and durability. Elevate your users' fitness journey with the precision, sophistication, and lasting durability that define the Apex Series.

 TRUE FITNESS

APEX SERIES USER AMENITIES

FEEL THE DIFFERENCE

The ultimate choice for users seeking unparalleled performance and comfort. The Apex Treadmill features TRUE FITX, an integrated suspension system designed to provide users with a better running experience.

ROBUST DESIGN

Precision-engineered and robust, the Apex Series' durable components will withstand rigorous use, high-intensity workouts, and performance training for years.

MODERN AND POWERFUL AESTHETIC

With a sleek aesthetic and modern design, the Apex Series is perfectly suited for both high-end and high usage facilities.

MULTIPLE CONSOLE OPTIONS

Ranging from the intuitive LED to a more robust 16" Touchscreen, Unite Consoles meet the needs of all users.

APEX TREADMILL

Elevate your running experience with our Apex Treadmill, designed to deliver the perfect blend of intense performance and unparalleled comfort. Engineered with precision and powered for optimal results, its robust components are constructed to withstand rigorous use, high-intensity workouts, and performance training over the years.

- + 17.0 MPH (27 KPH) Max speed
- + 18% Max incline, -3% with optional decline kit
- + HRC Cruise Control® and FITX System
- + Maintenance-free Waxed/Reversible Deck
- + Continuous 5hp motor

APEX ELLIPTICAL

Engineered with precision and powered for optimal results, the Apex Elliptical is built to withstand rigorous use, high-intensity workouts, and performance training over the years. The Apex Elliptical features TRUE's Core Drive® system, which promotes superior balance, stability, and comfort.

- + Space efficient, Small Footprint
- + Core Drive® System
- + Cardio 360™ Total Body Workout
- + Hybrid Self-Generating Brake
- + 21" Stride Length
- + Self-Generating Capability (LED console only)
- + Dual Stage System

APEX UPRIGHT BIKE

It's all in the details with the Apex Upright Bike. With sleek styling and small footprint, combined with TRUE's quality and durability, this bike is sure to be a facility favorite. Featuring a low step-over height and 15-position ergonomic and cushioned seat, users of all ages and fitness levels can enjoy a smooth, comfortable ride.

- + Self-Generating Capability (LED console only)
- + Single Stage Drive System
- + 3-Piece Crank System for Easier Maintenance
- + 30 Resistance Levels

TRUE FITNESS APEX SERIES

APEX RECUMBENT BIKE

The Apex Recumbent Bike combines the features of a standard recumbent bike with additional benefits, all within a space-efficient and compact design. The Apex Recumbent Bike offers self-generating capabilities, quick-access controls, and multiple training settings to explore and customize workouts. Featuring an easy, step-through design and 25-position ergonomic and cushioned seat, users of all ages and fitness levels can enjoy a smooth, comfortable workout.

- + Self-Generating Capability (LED console only)
- + Single Stage Drive System
- + 40-600 Watts Workload Range

APEX CROSS TRAINER

Designed based on precise human biomechanics, the Apex Cross Trainer delivers comfortable natural movement and flow, both forward and backward. With Multi-Grip handlebars, users can target different upper-body muscles simply by changing the grip; and Converging Path handlebars follow the natural path of the arms when walking or running.

- + Electronically adjustable stride from 20"- 28"
- + SmartStride® technology
- + Close pedal spacing
- + Low step-up height
- + Advanced training 30:30 and MMA

APEX RECUMBENT ELLIPTICAL

With its advanced and innovative design, the Apex Recumbent Elliptical allows users to reap the benefits of an elliptical workout while remaining seated. The recumbent seating reduces strain on the back and joints while also providing a low-impact workout, suitable for all ages and fitness levels.

- + Comfortable swivel seat
- + Step-through design
- + Upper/Lower Body Isolation
- + Power Stroke Technology
- + Active Seat Position for optimal comfort

GRAVITY SERIES

A woman in a pink top and blue leggings is riding a stationary bike, while a man in a green shirt and black shorts is running on a treadmill in the background. The machines are black with 'TRUE' branding. The scene is set in a bright, modern gym with large windows.

TRUE FITNESS CARDIO:
GRAVITY SERIES

LONG- LASTING VERSATILITY

With the Gravity series cardio products, durability intersects with sleek styling and versatility. Crafted with all users in mind, the Gravity Series meets the needs of a variety of facility types looking for TRUE dependability and aesthetics paired with efficient features to maximize user's workouts. Meet the needs of both your members and facility with the reliability of the Gravity Series.

GRAVITY SERIES USER AMENITIES

COMFORTABLE & EASY TO USE

The inclusion of user-friendly features such as TRUE's treadmill FITX suspension system and Core Drive on the elliptical make hard workouts more intuitive and comfortable.

TRUE DEPENDABILITY

Minimize downtime and maximize member satisfaction with the long-lasting TRUE-tested durability of the Gravity Series that can withstand extensive usage over time.

MULTIPLE CONSOLE OPTIONS

Ranging from the intuitive LED to a more robust 16" Touchscreen, Unite Consoles meet the needs of all users.

GRAVITY PLUS TREADMILL

Optimize your facility's efficiency with a treadmill designed for both beginners and fitness enthusiasts. Engineered with precision, the Gravity Plus Treadmill drive system and deck are built to withstand rigorous daily usage. Combined with a maintenance-free deck and belt system means effortless upkeep and less downtime for your facility.

- + 12.5 MPH (20 KPH) Maximum Speed
- + 15% Maximum incline with Optional Decline Kit
- + FITX System
- + Maintenance-Free Reversible / Waxed Deck
- + Cable management system

GRAVITY TREADMILL

Maximize space in your facility with the Gravity Treadmill's compact frame. The dependable drive system and sturdy deck ensure smooth operation for years to come.

- + 12.5 MPH (20 KPH) Maximum Speed
- + 15% Maximum incline
- + FITX System
- + Maintenance-Free Reversible / Waxed Deck

GRAVITY ELLIPTICAL

Provide your members versatile, low-impact workouts with the dependable Gravity Elliptical. The small and compact footprint allows you to maximize your floor space, while the patented Core Drive® provides users with safe and easy entry/exit.

- + Self-Generating (LED console only)
- + Core Drive® System
- + Cardio 360 programming
- + Hybrid Self-Generating Brake
- + 21" Stride Length
- + Low Step-Up Height

GRAVITY UPRIGHT BIKE

The Gravity Upright Bike combines premium materials with smart design. Paired with TRUE's renowned quality and durability, this bike is destined to become a favorite in your facility with both beginners and seasoned cyclists. Its compact footprint also enables you to optimize premium space in your facility.

- + Self-Generating (LED console only)
- + 30 Resistance Levels
- + Dual-Sided Pedals with Ratcheting Strap
- + Ergonomic seat with 15 Positions
- + 2 Front Transport Wheels

GRAVITY RECUMBENT BIKE

The Gravity Recumbent Bike combines quality materials with smart design for best-in-class performance and durability. The ergonomic, reclining back pad and simple programming of the Gravity Recumbent Bike enhances comfort and makes exercise an easy and enjoyable process for users of all fitness levels. With a custom-designed, racetrack-inspired steel frame and self-generating option, this piece can be placed anywhere in your facility.

- + Self-Generating (LED console only)
- + Reclining Back Seat
- + 30 Resistance Levels

GRAVITY CROSS TRAINER

The Gravity Cross Trainer provides comfortable, low-impact movement and flow while also providing upper body ergonomics. With the inclusion of built-in Workout Boosters, the Gravity Cross Trainer stands out as an optimal choice for a diverse range of exercisers.

- + 24" Stride Length
- + Long-lasting performance
- + Multi-Grip and Converging Path handlebars
- + Advanced Programs & Workout Boosters

GRAVITY RECUMBENT ELLIPTICAL

It's all in the details with the Gravity Recumbent Elliptical. With sleek styling and small footprint, combined with TRUE's quality and durability, this recumbent elliptical is sure to be a facility favorite. Featuring a low step-over height and 15-position ergonomic seat, users of all ages and fitness levels can enjoy a smooth, comfortable ride.

- + Active Seat Position for optimal comfort
- + Step-through design

OCTANE

TRUE FITNESS CARDIO:
OCTANE

FUEL YOUR WORKOUTS WITH OCTANE

Whether the fitness goal is to burn calories, strengthen heart muscles, or enhance stamina and endurance, Octane's cardio equipment provides users the ability to achieve their specific fitness objectives with efficiency and effectiveness. With Octane's innovative technology and user-friendly designs, users can tailor their workouts with ease, making it easier to not only stay motivated but also gear progress toward their desired outcomes.

 TRUE FITNESS

OCTANE USER AMENITIES

HIGH-PERFORMANCE

Octane meets the high-performance needs of facilities ranging from health clubs to boutique gyms with equipment that provides unique and functional total-body challenges.

UNIQUE FEATURES

Unique and versatile modalities like the lateral stepping motion on the LateralX or Walk/Run/Hike/Climb options on the XT-One will make your facilities' offerings stand out.

PREMIUM QUALITY

High-quality components and precise engineering ensure Octane products match the demands of your facility.

MULTIPLE CONSOLE OPTIONS

Keep members engaged and entertained with the Unite Series of consoles for LateralX and XT-One. Simple, user-friendly consoles are included with RO, SURGE, and ADX.

XT-One

Octane

The cross trainer that does it all. The XT-One is an all-in-one machine that lets exercisers walk, run, hike or climb to target different muscles for customized effectiveness. Created with premium materials and innovative design, this elliptical will stand up to every workout while fueling performance and delivering results. Octane Fitness ellipticals give exercisers the ability to challenge themselves with intense workouts, yet still feel good both during and after their routines.

- + Combines adaptations of ellipticals and non-elliptical modalities in one machine
- + Adjustable incline
- + Adjustable stride length
- + SmartStride® technology
- + Advanced training 30:30 and MMA
- + Workout Boosters

Lateral X

Octane

Move in a different direction. Add new dimension and excitement to your cardio floor with the LateralX elliptical that delivers functional challenges, more muscle demands and high caloric burn – all in a space-efficient design.

- + Adjustable side to side and stepping motion
- + Adjustable lateral 3-D motion
- + Adds muscle confusion with 10 varying planes of motion
- + Great for sports, rehab and stability training, working the hips, thighs and glutes
- + Advanced Training and Workout Boosters

TRUE FITNESS OCTANE SERIES

OCTANE RO

Octane

Redefining rowing. In its relentless quest to fuel exercise, Octane Fitness delivers a sleek, inviting rower that boasts innovative features and thoughtful extras that reinvent and recharge indoor rowing.

- + Quick-release foot strap
- + Dual resistance – fan and magnetic brake
- + MultiGrip handlebar
- + Enhanced console featuring a calorie meter
- + Comfort seat
- + Oversized handlebar catch
- + Small footprint

SURGE

Octane

Our performance driven Surge Cycle Bike is designed to withstand the rigorous demands of any fitness space. Solid construction ensures long-lasting performance for the most intense cycling classes. The maintenance-free magnetic resistance system features a rear wheel design. Octane's premium cycle bike provides multiple seat adjustments for biomechanically correct positioning.

- + Magnetic resistance provides smooth frictionless resistance
- + A built-in generator powers the console eliminating the constant need to replace batteries
- + Rear flywheel design protects from sweat and corrosion

ADX

Octane

Building on Octane's long heritage of innovation and performance, the ADX bike boasts Octane's trademark durability, with heavy-duty construction and a moisture-repellent frame.

- + 26-blade performance fan
- + Inertia performance drive system
- + Single-stage belt for instant activation
- + Class A watts rating
- + Smooth motion
- + HIIT workouts
- + Calibration technology

CONSOLES

TRUE FITNESS CARDIO: CONSOLES

TECHNOLOGY THAT'S THOUGHTFUL, FUNCTIONAL & INNOVATIVE

TRUE Fitness' suite of cardio consoles lets you customize your commercial fitness equipment to both your facility and your users.

Get the most out of your TRUE Fitness equipment with technology solutions that are tailored to both the facility and exerciser's wants and needs.

UNITE LED CONSOLE

With a sleek and streamlined design, our all new UNITE LED console offers an even more user-friendly interface and enhanced functionality, making it easier than ever for users to achieve their fitness goals.

- + Large LED display with intuitive navigation
- + 8 data points for detailed workout feedback
- + Dedicated message center
- + 10-key pin pad for easy set-up and data entry
- + 19 to 32 workouts (dependent upon equipment type)
- + Quick-access workout program keys
- + Self-generated (dependent upon equipment type)
- + EcoFit integration available

UNITE 10" TOUCHSCREEN

For budget conscious facilities, the UNITE 10" Touchscreen provides the same vivid screen and improved performance and features, but on a smaller scale.

- + Vivid 10" screen with state-of-the-art UI
- + Enhanced speed and performance
- + Seamless connectivity to Apple Watch & Samsung Galaxy Watch wearables
- + Wireless charging for mobile devices
- + Wide selection of streaming and entertainment apps
- + Built-in mirroring capabilities
- + Bluetooth® connection to heart rate straps, headphones and mobile devices
- + Wi-Fi, ANT+, and NFC compatibility
- + E-gym and EcoFit integration available

UNITE 16" TOUCHSCREEN

Elevate your members' fitness experience with the UNITE 16" Touchscreen cardio console. With its advanced features and intuitive design, it's the perfect companion for achieving fitness goals with style and efficiency.

- + Vibrant 16" screen with state-of-the-art UI
- + Enhanced speed and performance
- + Seamless connectivity to Apple Watch & Samsung Galaxy Watch wearables
- + Wireless charging for mobile devices
- + Wide selection of streaming and entertainment apps
- + Built-in mirroring capabilities
- + Bluetooth® connection to heart rate straps, headphones and mobile devices
- + Wi-Fi, ANT+, and NFC compatibility
- + E-gym and EcoFit integration available

STRENGTH

A photograph of a modern gym interior with large windows. Two men are working out on True Fitness machines. The man on the left is seated on a leg press machine, wearing a blue t-shirt and grey shorts. The man on the right is seated on a cable machine, wearing a blue t-shirt and light blue shorts. A third person's legs are visible on the far right. The word "STRENGTH" is overlaid in large white letters.

TRUE FITNESS STRENGTH

DESIGNED TO FULFILL EVERY NEED FOR FACILITIES BIG AND SMALL

For over four decades, we've led the way in revolutionizing the fitness industry, leveraging our extensive experience to craft the most dependable equipment around. From selectorized machines to plate-loaded systems and functional trainers, our range of strength equipment caters to the diverse needs of facilities, regardless of size.

Our global network of authorized sales and service representatives provides prompt and valuable assistance whenever you require support or have inquiries about your TRUE Fitness equipment.

PALLADIUM SERIES

A man with tattoos is using a True Fitness Palladium Series chest press machine in a gym. The machine is black with 'TRUE' and 'TROY 45' branding. The man is wearing a green t-shirt and grey shorts. The background shows other gym equipment.

TRUE FITNESS STRENGTH:
PALLADIUM SERIES

PREMIUM DURABILITY & BIOMECHANICS

Advanced functionality, comfortable touchpoints, and precise ergonomics are all packaged in a modern design. Set your facility apart and provide users with an intuitive strength-training experience with the Palladium Series.

 TRUE FITNESS

PALLADIUM SERIES USER AMENITIES

HEIGHT ADJUSTMENT GUIDE

This innovative feature guides users on setting the seat based on their height. Once determined on one machine, it is the same across the entire circuit.

MODERN AESTHETICS

The 120mm x 60mm oval-shaped tubing of the Plate Loaded and Selectorized lines enhances the visual appeal while ensuring structural integrity.

VERSATILE MOVEMENTS

Incorporating unilateral converging and diverging movements where appropriate, TRUE Palladium Selectorized and Plate Loaded pieces adapt to your workout needs.

SPACE-EFFICIENT DESIGN

With easy entry and exit designs, the Palladium Series optimizes space without compromising functionality. Palladium Modular provides you with the flexibility to choose the exercise stations and positioning that best suits your facility.

PALLADIUM SERIES SELECTORIZ

TRUE FITNESS STRENGTH: PALLADIUM SELECTORIZED

PRECISE WEIGHT ADJUSTMENTS

Integrated adder weight system option reduces increments to 5 lbs / 2.2 kg.

Metal Shroud

Acrylic Shroud

SEATED LEG EXTENSION
SPL-0100

The Palladium Series SPL-0100 Seated Leg Extension features modern styling, precision biomechanics, and a comfortable, easy entry and exit design. This seated leg machine is easy to manipulate and is comfortable for all users. Adjustment points are accessible from the seated position and engineered to accommodate a wide range of users.

- + Height Adjustment Guide
- + Easy access phone cradle and accessory storage tray with cup holder
- + Integrated adder weight system reduces increments to 5 lbs/2.2 kg

SEATED LEG CURL
SPL-0200

Leg curl machines are a staple. They provide effective isolating and strengthening hamstring workouts that balance muscles and enhance lower body power. The SPL-0200 Seated Leg Curl machine is part of TRUE's signature Palladium Series, designed with precision biomechanics and user comfort in mind. Users can also explore a multitude of seat adjustment options to further enhance their workouts to suit their specific needs and elevate comfort.

- + Height Adjustment Guide
- + Easy access phone cradle and accessory storage tray with cup holder
- + Integrated adder weight system reduces increments to 5 lbs/2.2 kg

SEATED LEG PRESS
SPL-0300

Users of all levels, from novice to professional, will benefit from the advanced biomechanics of the Palladium Series SPL-0300 Seated Leg Press machine. This leg press weight machine is easy to use and offers lots of workout customizations, allowing users to cater their leg training to their skill, size, and needs. The adjustable back pad and a unique-to-TRUE adjustable foot platform accommodate a wide range of users and allow multiple foot and seated positions for added exercise variation.

- + Easy access phone cradle and accessory storage tray with cup holder
- + Integrated adder weight system reduces increments to 5 lbs/2.2 kg

INNER / OUTER THIGH
SPL-0400

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series SPL-0400 Inner and Outer Thigh machine.

- + Space and cost-efficient dual-function machine
- + 5-position adjustable back
- + Easily accessible adjustable cam

TRICEPS PUSHDOWN
SPL-0500

The Palladium Series SPL-0500 provides the perfect platform for isolating the tricep muscles, making it an effective training tool for muscle building and rehabilitation. This tricep gym machine features many beneficial biomechanics, such as dual handgrip positions with narrow and wide handle options and a seat angled to maintain body position when using heavyweights.

- + 8 different seating positions that are adjustable while seated or standing.
- + Premium grade linear bearings and gas cylinders that provide stability and low friction adjustments.
- + 20-degree fixed angle contoured back pad for added support and proper alignment during exercise.

SEATED BICEPS CURL
SPL-0600

The Palladium Series SPL-0600 Seated Biceps Curl machine can give your gym members an efficient, customizable, and comfortable bicep workout that aligns with their goals and enhances their exercise experience.

- + 8-position seat adjustable while seated or standing uses premium grade linear bearings and gas cylinder assist for stable, low friction adjustments
- + Dual cam design allows each arm to operate independently for bilateral or unilateral training
- + Handles swivel to accommodate a wide range of users without the need for additional adjustments

SEATED SHOULDER PRESS
SPL-0700

The Palladium Series SPL-0700 Seated Shoulder Press machine is the perfect piece of equipment for full-range, upper-body strength training. Every aspect of this seated shoulder press machine's design maximizes workout customizability and effectiveness. The machine's TRUE adjustable back pad with four adjustable positions allows users to choose the range of motion best suited to their individual needs by changing horizontal hand position relative to the shoulder.

- + Height Adjustment Guide
- + Easy access phone cradle and accessory storage tray with cup holder
- + Integrated adder weight system reduces increments to 5 lbs/2.2 kg

DELTOID RAISE
SPL-0800

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Deltoid Raise.

- + 8-position seat
- + Independent arm movement
- + Counterbalanced press arms provide user-friendly low starting resistance
- + Ergonomically designed handles

CHEST PRESS
SPL-0900

Dual overhead pivots on the Palladium Series Chest Press allow handles to travel in a slight upward motion for maximum muscle recruitment while unilateral press arms converging at 25 degrees in front of the user and an adjustable back pad allow full articulation of the shoulder complex.

- + 8-position seat adjustable while seated or standing uses premium grade linear bearings and gas cylinder assist for stable, low friction adjustments
- + Unilateral press arms converge at 25 degrees in front of the user resulting in full articulation of the shoulder complex

PEC FLY/ REAR DELT
SPL-1000

The dual function Palladium Series Pec Fly/ Rear Delt features modern styling, precision biomechanics and a comfortable easy entry and exit design. Adjustment points are accessible from the seated position and engineered to accommodate a wide range of users.

- + 8-position seat adjustable while seated or standing uses premium grade linear bearings and gas cylinder assist for stable, low friction adjustments
- + 8-position dual cams include 4-positions for Rear Deltoid and 4-positions for Pec Fly

LAT PULLDOWN
SPL-1100

Featuring unilateral arms that diverge at 17.5 degrees per side, the Palladium Series Lat Pulldown allows full articulation of the shoulder complex in a comfortable, user-friendly easy entry and exit design.

- + 8-position seat adjustable while seated or standing uses premium grade linear bearings and gas cylinder assist for stable, low friction adjustments
- + Unilateral arms diverge at 17.5 degrees per side resulting in full articulation of the shoulder complex

SEATED ROW
SPL-1200

Unilateral arms that diverge at 11 degrees with trailing link handles and rotating grips make the SPL-1200 Palladium Series Seated Row the perfect choice for all users from novice to professional. The center grip provides stability during one-arm rows while the adjustable chest pad comfortably accommodates a wide range of users.

- + 8-position seat adjustable while seated or standing uses premium grade linear bearings and gas cylinder assist for stable, low friction adjustments
- + Unilateral arms diverge at 11 degrees resulting in full articulation of the shoulder complex

LOW BACK EXTENSION
SPL-1300

Users of all levels, from novice to professional, will benefit from the advanced biomechanics of the Palladium Series Low Back Extension.

- + Adjustable Foot Platform
- + Adjustable Start Range
- + Ergonomically Designed Handles And Support

ABDOMINAL CRUNCH
SPL-1400

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Abdominal Crunch.

- + Dual Pivot Design
- + Low Profile Design
- + Shin Pad Adjustment

ROTARY TORSO
SPL-1500

Users of all levels from novice to professional, will benefit from the advanced biomechanics of the Palladium Series Rotary Torso.

- + Adjustable Seat While Seated Or Standing
- + Bottom Pivot Design And Precise Ergonomics
- + 12-Position Adjustable Cam
- + Ergonomic Handles

ROTARY CALF
SPL-1600

GLUTE PRESS
SPL-1700

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Rotary Calf.

- + 10-position seat back adjustable while seated or standing uses premium grade linear bearings and gas cylinder assist for stable, low friction adjustments
- + Seated position displaces force over hips versus shoulders and reduces spinal compression
- + Oversized foot platform curved for comfort and exercise variation
- + Ergonomically designed handles provide support and encourage proper alignment during exercise

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Glute Press.

- + 8-position adjustable torso pad and contoured dual hand grips for proper body alignment and support during exercise
- + Offset pivot axis accommodates a wide range of users without the need for additional adjustments
- + Upright and open design provides a comfortable exercise position and eases entry and exit of the machine

HORIZONTAL LEG CURL
SPL-1800

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Horizontal Leg Curl.

- + 8-position ankle pad accommodates a wide range of users
- + 10-position start range limiter allows users to choose a range of motion best suited to their individual needs
- + 15° chest pad and 30° thigh pad reduces low back stress
- + Elbow pads with ergonomically designed handles provide support and encourage proper alignment during exercise

HIP THRUSTER
SPL-2000

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Hip Thruster.

- + 6-position torso pad with gas cylinder assist accommodates a wide range of users
- + The back pad pivots throughout the entire range of motion to encourage maximum hip extension
- + Oversized foot platform with non-skid surface for exercise variation
- + Ergonomically designed handles provide support and encourage proper alignment during exercise

PALLADIUM SERIES PLATE LOAD

TRUE FITNESS STRENGTH: PALLADIUM PLATE LOADED

STANDARD FEATURES

Standard paint finish is matte black with choice of 18 upholstery color options.

CUSTOMIZATION OPTIONS

Custom powder coat finish, custom upholstery color, and facility branding available upon request.

BUILT-IN STORAGE

Select models come with standard plate storage, offering convenience and efficiency in your fitness space.

CHEST PRESS
PLS-0100

The Palladium Series Plate Loaded PLS-0100 Chest Press provides unique 5-position handles that allow the user to adjust starting position and range of motion to fit their specific needs. Unilateral press arms converge for maximum articulation of the shoulder and allow for a complete range of motion. Six weight storage posts standard.

- + Unique 5-position adjustable handles allow user to set range of motion best suited to their individual needs
- + 6-position seat uses gas cylinder assist for stable, friction-free adjustments
- + Height Adjustment Guide provides guidance on where to set seat based on user's height

SHOULDER PRESS
PLS-0200

The Palladium Series Plate Loaded PLS-0200 Shoulder Press features unique 4-position handles that allow the user to change hand position in relation to the shoulder resulting in start and stop positions and range of motion specific to the user's needs. Unilateral press arms converge above and in front of the user for maximum articulation of the shoulder. Four weight storage posts standard.

- + Unilateral arms converge above and in front of the user to maximize articulation of the shoulder and allow for a complete range of motion
- + Unique 4-position adjustable handles allow user to set range of motion best suited to their individual needs

LAT PULLDOWN
PLS-0300

Users of all levels, from novice to professional, will benefit from the advanced biomechanics of the Palladium Series Plate Loaded PLS-0300 Lat Pulldown. Featuring unilateral arms that diverge for a complete range of motion resulting in greater muscle recruitment and a more efficient workout. Four weight storage posts standard.

- + Unilateral arms diverge to maximize articulation of the shoulder and allow for a complete range of motion
- + 4-position thigh pad fits wide range of users
- + 6-position seat uses gas cylinder assist for stable, friction-free adjustments

SEATED ROW
PLS-0400

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Plate Loaded PLS-0400 Seated Row. Featuring unilateral arms with dual-grip handles, the Palladium Series Seated Row takes the user through a complete range of motion resulting in greater muscle recruitment and a more efficient workout. Chest pad and single handle provide stability. Six weight storage posts standard.

- + Unilateral arms diverge to maximize articulation of the shoulder and allow for a complete range of motion
- + Multi-grip handles for exercise variation and center post for stability during one-arm rows

KNEE RAISE/ AB CRUNCH
PLS-0500

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Plate Loaded PLS-0500 Knee Raise/Ab Crunch. Unique patent-pending dual pivot design engages both upper and lower abdominals. Low profile frame offers easy entry/exit. Two weight storage posts standard.

- + Unique, patent-pending dual pivot design provides simultaneous ab crunch and knee raise movements to target upper and lower abs
- + Low profile design allows for easy entry and exit

BICEPS CURL
PLS-0600

The Palladium Series Plate Loaded PLS-0600 Biceps Curl features a low-profile space-efficient design and unique offset pivot, allowing users to set their preferred elbow position without the need to align with a fixed pivot. True to form curl bar allows for exercise variation, including narrow and wide grips, reverse curls, and one-arm curls.

- + Unique off-axis pivot design allows users to place elbows freely on pad without need to align with fixed pivot
- + Curl bar provides variety of grip positions including wide, narrow, and reverse
- + 6-position seat uses gas cylinder assist for stable, friction-free adjustments

SQUAT PRESS
PLS-0800

Users of all levels from novice to professional will benefit from the advanced biomechanics of the Palladium Series Plate Loaded PLS-0800 Squat Press. Low profile easy entry/exit design features comfortable seat position and single pivot to displace force over hips rather than low back and shoulders. Oversized foot platform with non-skid surface included for exercise variation. Dual stops accommodate wide range of users.

- + Unique single pivot design allows for maximum hip extension with no spinal compression
- + Low profile and easy entry/exit design features oversized foot platform with non-skid surface for exercise variation

TRICEPS EXTENSION
PLS-0900

The Palladium Series Plate Loaded PLS-0900 Triceps Extension offers unilateral press arms, and both standard and neutral grip handles that provide the user with a variety of exercise options. Two weight storage posts standard.

- + Multi-grip handles for exercise variation
- + 4-position thigh pad fits wide range of users
- + 6-position seat uses gas cylinder assist for stable, friction-free adjustments

HACK SQUAT
PLS-1000

The Palladium Series Plate Loaded PLS-1000 Hack Squat offers a low profile easy entry/exit design. The Hack Squat features comfortable seat position with low back support to displace force over hips rather than low back and shoulders. Oversized foot platform with non-skid surface included for exercise variation. Four weight storage posts standard.

- + Back pad offloads weight against hips rather than spine and provides support throughout range of motion
- + Low profile and easy entry/exit design features oversized foot platform with non-skid surface for exercise variation

INCLINE CHEST PRESS
PLS-1100

The Palladium Series Plate Loaded PLS-1100 Incline Chest Press offers unique 5-position handles that allow the user to adjust starting position and range of motion to fit their specific needs. Unilateral arms converge to maximize articulation of the shoulder and allow for a complete range of motion. Six weight storage posts standard.

- + Unilateral arms converge to maximize articulation of the shoulder and allow for a complete range of motion
- + Unique 5-position adjustable handles allow user to set range of motion best suited to their individual needs
- + 6-position seat uses gas cylinder assist for stable, friction-free adjustments

LEG EXTENSION
PLS-1200

The Palladium Series Plate Loaded PLS-1200 Leg Extension offers a unique off-axis pivot design that allows users to place their knees freely on the pad without the need to align with a fixed pivot.

- + Unique off-axis pivot design allows users to place knees freely on pad without need to align with fixed pivot
- + Self-adjusting shin pad removes need for additional adjustment
- + 6-position seat back uses gas cylinder assist for stable, frictionfree adjustment

STANDING LEG CURL
PLS-1300

The Palladium Series Plate Loaded PLS-1300 Standing Leg Curl offers a unique off-axis pivot design that allows users to place their knees freely on the pad without the need to align with a fixed pivot.

- + Unique off-axis pivot design allows users to place knee freely on pad without need to align with fixed pivot
- + Self-adjusting ankle pad removes need for additional adjustment
- + 6-position torso pad and dual handles provide support during exercise

PENDULUM SQUAT
PLS-1400

The Palladium Series Plate Loaded PLS-1400 Pendulum Squat offers a unique pendulum-style movement that allows the user to achieve a complete range of motion while maintaining proper knee-to-ankle position.

- + Unique pendulum style movement allows the user to achieve complete range of motion while maintaining proper knee to ankle position
- + Weight plates are back loaded to add resistance and front loaded to reduce resistance
- + Oversized foot platform with non-skid surface allows for variety of foot positions and accommodates wide range of users
- + Dual safety catch system and range of motion limited standard

PALLADIUM SERIES MODULAR SYSTEMS

TRUE FITNESS STRENGTH: PALLADIUM MODULAR SYSTEMS

STANDARD FEATURES

Standard paint finish is matte black with choice of 18 upholstery color options.

CUSTOMIZATION OPTIONS

Custom powder coat finish, custom upholstery color, and facility branding available upon request.

CUSTOMIZABLE CONFIGURATIONS

Choose from 5 different configurations and 5 available add-on stations to create the Modular System perfectly suited for your specific needs.

OPTIONAL SHROUDS

Shrouds are optional.

VERSATILE INSTALLATION CHOICES

Available in free-standing and wall-mounted configurations.

FULLY CUSTOMIZABLE

Choose from up to 5 available add-on stations with A-ENDS and B-SIDES to make any of the Palladium Series Modular Systems perfect for your facility.

Single Adjustable Cable Column
with swivel pulley housing and easy lift handle

Lat Pulldown
adjustable thigh pad assembly with elevated wight stack for easy access

Biceps Curl
space efficient biceps curl station

Seated Low Row
elevated seat position minimizes floor space

Triceps Extension
with comfortable upholstered back support pad

+ 8 weight stack configuration shown with optional front and rear shrouds.

+ Please see your TRUE Fitness sales representative for more details on customization.

SINGLE MODULAR QUAD FRAME TMS-4000

This stand alone quad frame provides up to four workout stations in a compact and space-efficient footprint.

Dimensions as shown: 78" W x 145" D x 94" H

END AND SIDE STATIONS:

A POSITION ENDS (MAX 2, MIN 1)

- + Single Adjustable Cable Column
- + Biceps Curl
- + Triceps Extension

B POSITION SIDES (MAX 2, MIN 1)

- + Lat Pulldown
- + Seated Low Row

MODULAR FRAME WITH CABLE CROSSOVER TMS-5000

TMS-4000 4-sided pod + cable crossover with adjustable cable columns. Cable crossover available with 170lb/85lb resistance or 250lb/125lb resistance weight stacks. Multi-grip chin bar assemblies.

Dimensions as shown: 170" W x 145" D x 96" H

END AND SIDE STATIONS:

A POSITION ENDS (MAX 1, MIN 0)

- + Single Adjustable Cable Column
- + Biceps Curl
- + Triceps Extension

B POSITION SIDES (MAX 2, MIN 1)

- + Lat Pulldown
- + Seated Low Row

MODULAR FRAME WITH DUAL CABLE CROSSOVERS TMS-6000

Featuring a TMS-4000 4-sided pod attached to dual Cable Crossovers, the TMS-6000 can accommodate up to 8 users.

Dimensions as shown: 288" W x 145" D x 96" H

END AND SIDE STATIONS:

A POSITION ENDS (NONE)

B POSITION SIDES (MAX 2, MIN 1)

- + Lat Pulldown
- + Seated Low Row

DUAL MODULAR FRAME WITH CABLE CROSSOVER TMS-8000

With two TMS-4000 4-sided pods and a Cable Crossover, the TMS-8000 can be configured to fit in the center of a room or positioned up against a wall or mirror.

Dimensions as shown: 218" W x 145" D x 96" H

END AND SIDE STATIONS:

A POSITION ENDS (MAX 2, MIN 0)

- + Single Adjustable Cable Column
- + Biceps Curl
- + Triceps Extension

B POSITION SIDES (MAX 4, MIN 2)

- + Lat Pulldown
- + Seated Low Row

3 MODULAR FRAMES WITH DUAL CABLE CROSSOVERS TMS-12000

With three TMS-4000 4-sided pods and two Cable Crossovers, the TMS-12000 can be configured to fit in the center of a room or positioned up against a wall or mirror.

Dimensions as shown: 358" W x 145" D x 96" H

END AND SIDE STATIONS:

A POSITION ENDS (MAX 2, MIN 0)

- + Single Adjustable Cable Column
- + Biceps Curl
- + Triceps Extension

B POSITION SIDES (MAX 6, MIN 3)

- + Lat Pulldown
- + Seated Low Row

4 MODULAR FRAMES WITH TRIPLE CABLE CROSSOVERS TMS-16000

With four TMS-4000 4-sided pods and three Cable Crossovers, the TMS-16000 can be configured to fit in the center of a room or positioned up against a wall or mirror.

Dimensions as shown: 498" W x 145" D x 96" H

END AND SIDE STATIONS:

A POSITION ENDS (MAX 2, MIN 1)

- + Single Adjustable Cable Column
- + Biceps Curl
- + Triceps Extension

B POSITION SIDES (MAX 8, MIN 4)

- + Lat Pulldown
- + Seated Low Row

FUSE XL SERIES

TRUE FITNESS STRENGTH:
FUSE XL SERIES

PERFORMANCE TO MEET YOUR BUDGET

A modern and comprehensive strength-conditioning system designed to meet the space, budget, and performance demands of today's commercial fitness facilities. The user-friendly features and performance will appeal to a wide variety of users.

FUSE XL SERIES USER AMENITIES

HEIGHT ADJUSTMENT GUIDE

This innovative feature guides users to setting the seat based on their height. Once determined on one machine, it is consistent across the entire circuit.

USER-FRIENDLY FEATURES

The 4-bar linkage seat adjustments, with gas cylinder assist, ensure smooth transitions between various positions. Meanwhile, users benefit from comfort features, including accessory tray with a cup holder and towel holder.

SPACE-EFFICIENT DESIGN

Featuring easy entry and exit designs and a space-efficient footprint, FUSE XL optimizes space while maintaining functionality.

LEG EXTENSION
FUSE-0100

Intuitive adjustments including 4-position start range limiter and multiple position back and ankle pad assemblies accommodate a wide range of users.

- + 5-position seat uses four-bar linkage with gas cylinder assist
- + 20° fixed angle contoured back pad provides support and proper alignment during exercise
- + Ergonomically located handles with contoured grips for proper user support and alignment

SEATED LEG CURL
FUSE-0200

7-position start range limiter and multiple position thigh, ankle, and back pads provide comfort and a precise fit for a wide range of users.

- + 5-position seat uses 4-bar linkage with gas cylinder assist
- + 4-position thigh pad assembly accommodates a wide range of users
- + Ergonomically located handles with contoured grips for proper support

LEG PRESS
FUSE-0300

Easy entry and exit adjustable seat assembly is angled 20 degrees and features a 3-position back pad for greater hip extension.

- + 9-position seat assembly adjusts easily using ergonomically designed paddle handle
- + Large molded platform angled at 10° maximizes hip extension while maintaining neutral ankle position
- + Low profile open frame design allows for easy entry and exit

INNER/ OUTER THIGH
FUSE-0400

The FUSE-0400 Inner/Outer Thigh machine is a space and cost-efficient addition to the FUSE-XL line, serving a dual function to exercise both adductor and abductor muscles.

- + Pivoting contoured leg pads provide comfort and allow for easy transition between movements
- + Dual rubber covered foot posts provide support
- + Weight stack located in front of user for privacy, space efficiency, and ease of selection

BICEPS CURL
FUSE-0600

Unique offset pivot design allows users to choose the range of motion best suited to their individual needs while the integrated curl bar offers multiple grip options.

- + 5-position seat uses 4-bar linkage with gas cylinder assist for stable, low friction adjustments
- + Unique offset-pivot design and counterbalanced arm assembly allow user to choose the range of motion
- + Integrated towel holder and accessory tray with cup holder

SHOULDER PRESS
FUSE-0700

Standard and neutral grips combine with a 3-position adjustable back pad and independent converging press arms to provide true unilateral movement through a complete range of motion for greater muscle recruitment and a more efficient workout.

- + 5-position seat uses 4-bar linkage with gas cylinder assist for stable, low friction adjustments
- + Unilateral arms converge to maximize articulation of the shoulder
- + Integrated towel holder and accessory tray with cup holder

DELTOID RAISE
FUSE-0800

Independently-operating dual press arms allow users to bilaterally or unilaterally train deltoid, trapezius and supraspinatus muscles.

- + 5-position seat uses four-bar linkage with gas cylinder assist for stable, low friction adjustments
- + Seat and chest pads angled 5 degrees for proper ergonomics and support
- + Integrated towel holder and accessory tray with cup holder

CHEST PRESS
FUSE-0900

Three position hand grips and independent converging press arms provide true unilateral movement through a complete range of motion for greater muscle recruitment and a more efficient workout.

- + 5-position seat uses four-bar linkage with gas cylinder assist for stable, low friction adjustments
- + Unilateral arms converge to maximize articulation of the shoulder and allow for a complete range of motion
- + Integrated towel holder and accessory tray with cup holder

PEC FLY/ REAR DELT
FUSE-1000

Space efficient dual function design features seven adjustment positions, angled hand grips, and pivoting exercise arms to accommodate a wide range of users.

- + 5-position seat uses four-bar linkage with gas cylinder assist
- + Dual-position handles with angled grips pivot to replicate dumbbell movements
- + Weight stack conveniently located for easy access and to minimize floor space requirements
- + Integrated towel holder and accessory tray with cup holder

LAT PULLDOWN
FUSE-1100

Our FUSE-1100 Lat Pulldown machine features diverging arms operate independently through a complete range of motion resulting in greater muscle recruitment and a more efficient workout.

- + 5-position seat uses four-bar linkage with gas cylinder assist for stable, low friction adjustments
- + 5-position thigh pad accommodates wide range of users
- + Unilateral arms diverge to maximize articulation of the shoulder and allow for a complete range of motion

SEATED ROW
FUSE-1200

Unique rotating handles combine with independent diverging arms to provide unilateral movement through a complete range of motion for greater muscle recruitment and a more efficient workout.

- + 5-position seat uses four-bar linkage with gas cylinder assist for stable, low friction adjustments
- + 8-position chest pad accommodates wide range of users
- + Handles rotate freely for exercise variation

LOWER BACK EXTENSION
FUSE-1300

This FUSE-1300 Lower Back Extension machine is high-quality and will help your clients achieve their goals. This easy entry and exit machine include innovative features for proper alignment and support during exercise.

- + 4-position adjustable roller pad and angled lumbar pad
- + Dual-position foot rests provide torso stabilization for a wide range of users
- + Low seat frame and open design for ease of entry and exit of the machine
- + Integrated towel holder and an accessory tray with cup holder

**ABDOMINAL
FUSE-1400**

Easy entry and exit design allows for pelvic stabilization and enhanced isolation of the abdominal region.

- + 5-position seat uses four-bar linkage with gas cylinder assist
- + 4-position adjustable roller pad with dual hand grips allows users to determine range of motion
- + Contoured lumbar pad encourages pelvic stabilization and abdominal isolation
- + Low seat frame and open design

**TRICEPS PUSHDOWN
FUSE-1500**

This Triceps Pushdown machine comes with dual position press arms that allow users to choose a narrow or wide grip. The angled back pad accommodates a wide range of users and provides support during exercise.

- + 5-position seat uses four-bar linkage with gas cylinder assist for stable, low friction adjustments
- + 20° fixed angle contoured back pad provides support and proper alignment during exercise
- + Handles easily adjust between wide and narrow positions

**ROTARY TORSO
FUSE-1700**

A low-seated frame and cushioned seat make the FUSE-1700 Rotary Torso machine not only accessible but comfortable. Rotate at the lumbar spine while engaging hip flexors and upper back muscles simultaneously.

- + An 11-point easy adjustment handle to a customized range of motion from a seated position
- + Angled hip and thigh pads eliminate low body torque and encourage spinal alignment
- + Comfortable roller pads and angled grip handles for proper support

HORIZONTAL LEG CURL
FUSE-1800

Designed with a raised angle between the chest and thigh pads reduce lower back stress while using, users can adjust resistance easily.

- + Chest and thigh pads angled at 15° for proper alignment during exercise movements
- + 5-position ankle pad to accommodate a wide range of users
- + Heavy-duty pivot arm assembly with sealed bearings off-set for easy entry and exit of the machine
- + Ergonomically located handles with contoured grips to provide more support during exercise

WEIGHT-ASSISTED CHIN-DIP
FUSE-4000

For safe and efficient chin dips, exercisers require a stable, reliable, and strong contraption to support their weight and allow for ease of movement. The TRUE FUSE-4000 Weight-Assisted Chin Dip machine offers just that—a modern styling and high-quality construction for superior movements that enhance chin dips.

This assisted dip machine is designed to meet the demands of today's commercial fitness facilities and is the perfect complement to any selectorized circuit. Plus, this chin dips machine equalizes body weight, providing a strong and supportive structure for safer workouts.

- + Step-By-Step exercise chart with easy-to-follow user instructions
- + Multi-position chin bar and pivoting dip handles for variation
- + Retracting foot platform for bodyweight exercises

XFW SERIES

A woman with long blonde hair, wearing a blue tank top and black shorts, is performing a barbell squat in a gym. She is holding a barbell across her upper back with both hands. The gym has a dark floor and other equipment is visible in the background.

TRUE FITNESS STRENGTH:
XFW SERIES

 TRUE FITNESS

POWER RACK WITH PLATE HOLDERS
XFW-7900

With 23 available adjustment points at three-inch increments, fully adjustable bar catches and catch rails, and an integrated pull-up station, the XFW-7900 Power Rack is suitable for a wide range of users and exercises. Users can use the XFW-7900 for bench presses, squats, pull-ups, and deadlifts. No matter the strength and muscle training your members want to target, this power cage can suit their needs.

The XFW-7900 Power Rack also comes with eight plate holders, providing convenient, organized, and easily accessible weight plate storage.

- + 23 available adjustment points
- + Fully adjustable bar catches and chrome-plated catch rails
- + Integrated pull-up station

DUAL SIDED HALF RACK
XFW-8300

Fully adjustable bar catches and catches rails with multiple options of training tools to accommodate a wide range of exercises. Optional accessories are sold separately.

- + Optional plate storage, chin bar, band pegs, core trainer, dip station, and center rack catch rails
- + 19 available adjustment points
- + 2 upright Olympic Bar storage posts

HALF RACK WITH PLATE HOLDERS
XFW-8100

Open face design features 19 available adjustment points at 3" increments, fully adjustable bar catches and catch rails to accommodate a wide range of exercises with integrated pull-up station including wide and narrow grips. The 8 plate holders and Olympic bar storage are standard while optional band peg kit (including band pegs and band storage posts) are sold separately.

- + Optional band peg kit
- + 19 available adjustment points at 3-inch increments
- + Fully adjustable bar catches and catch rails
- + Integrated pull-up station
- + Optional step available

SMITH MACHINE
XFW-6800

Offering modern styling, high-quality construction, and time-tested innovative designs, XFW plate loaded products truly represent the best in form, function and reliability.

- + Open-frame design and elevated head clearance provide for easy access and use of utility benches
- + 14-position bar catch assembly allows multiple exercise movements
- + Weight carriage counterbalanced to 10 lbs (4.5kg) and angled 3 degrees to accommodate natural rotation of anatomical joints during exercise
- + Dual-adjustable safety stops allow users to adjust range of motion to suit their individual needs
- + 8 weight storage posts standard

LEG PRESS
XFW-7800

Offering modern styling, high-quality construction, and time-tested innovative designs, XFW plate loaded products truly represent the best in form, function and reliability.

- + Premium grade linear bearings and high capacity weight carriage angled 45 degrees for optimum performance and durability
- + Dual-position pivoting carriage stops accommodate wide range of users
- + 3-position secondary safety stops allow users to adjust range of motion to suit their individual needs
- + Back pad with integrated head rest easily adjusts to 7 positions
- + Wide foot plate with molded rubber non-skid covering and calf raise provision offers secure placement and exercise variation

LEVER ROW
XFW-5500

Offering modern styling, high-quality construction, and time-tested innovative designs, XFW plate loaded products truly represent the best in form, function and reliability.

- + Heavy-duty swivel plate rack assembly accommodates 8-45 lbs / 8-20 kg plates
- + Standard and neutral grip positions for exercise variation
- + Rubber covered foot platforms provide support and encourage proper alignment during exercise
- + Dual 1" / 3 cm pivot axles provide smooth vertical and lateral range of motion
- + Floor anchor provisions in frame

SEATED CALF
XFW-5700

Offering modern styling, high-quality construction, and time-tested innovative designs, XFW plate loaded products truly represent the best in form, function and reliability.

- + Pivoting seat with 5-position, adjustable thigh pad assembly
- + Dual rubber-coated handles on the thigh pad frame provide an ergonomic hand position during the exercise and aid in the ease of entry and exit of the machine
- + Custom-molded, curved non-skid foot platforms provide proper foot support, alignment and comfort during exercise
- + Weight horn with plastic wear guard accommodates 10 x 45 lbs / 20 kg plates

**SUPINE PRESS BENCH WITH
PLATE HOLDERS**
XFW-7100

Offering modern styling, high-quality construction, and time-tested innovative designs, XFW benches truly represent the best in form, function and reliability.

- + 9 3/4" / 23 cm bench width allows free shoulder movement during exercise
- + Replaceable 2-position chrome bar catches
- + 6 plate holders come standard
- + Floor anchor provisions in frame

**INCLINE PRESS BENCH WITH
PLATE HOLDERS**
XFW-7200

Offering modern styling, high-quality construction, and time-tested innovative designs, XFW benches truly represent the best in form, function and reliability.

- + Fixed, 30 degrees angled seat back for optimum exercise benefit
- + 6 plate holders come standard
- + Replaceable 2-position chrome bar catches
- + Contoured, molded seat pad adjusts to seven positions to accommodate wide range of users
- + Floor anchor provisions in frame

**3-WAY PRESS BENCH WITH
PLATE HOLDERS**
XFW-8200

The 3-Way Bench Press with Plate Holders adjusts quickly and easily into 3 positions: supine, 30° incline and 10° decline. The 3-position seat and dual-position footrest accommodate a wide range of users for each exercise.

- + Easily adjusts into 3 positions: Supine, 30 degrees incline, 10 degrees decline
- + 3-position seat and dual-position foot rest to accommodate wide range of users for each exercise
- + Replaceable, 3-position chromed bar catches with 6 plate holders come standard
- + Dual foot rest tubes with custom, molded-rubber, non-skid foot grips provide support during exercise
- + Floor anchor provisions in frame

DUMBBELL RACK
XFW-4700

An organized gym offers many benefits beyond aesthetics, from enhanced safety to efficient workout experiences. With our XFW-4700 Dumbbell Rack, you can reap those benefits and keep your gym's workout areas orderly, safe, and easy to navigate, maximizing your members' strength training experience.

The XFW-4700 Dumbbell Rack is available in six pair, 10 pair, 12 pair, 16 pair, 20 pair, and 30 pair. It does not accommodate hex head dumbbells.

- + XFW-4700-6 (6 pair)
- + XFW-4700-10 (10 pair)
- + XFW-4700-12 (12 pair)
- + XFW-4700-16 (16 pair)
- + XFW-4700-20 (20 pair)
- + XFW-4700-30 (30 pair)

PREACHER CURL
XFW-5000

Precise arm pad angle with comfort edge roll and easily adjustable seat.

- + Molded, contoured seat with 6-position height adjustment accommodates a wide range of users
- + Arm pad angled at 45 degrees for proper ergonomic support
- + Replaceable, plastic wear guards on bar-support catches
- + Custom molded, non-skid foot support pads
- + Floor anchor provisions in frame

ROMAN BENCH
XFW-5600

Adjustable thigh pad assembly angled 45° for proper ergonomics, accommodation to a wide range of users.

- + 45 degree angle for proper ergonomics
- + 9-position, adjustable thigh pad assembly supports wide range of users
- + Rubber-coated handles with attractive aluminum end covers provide assistance for ease of entry and exit
- + U-shaped base frame provides open feel during the lower part of the exercise movement
- + Floor anchor provisions in frame

TRICEPS SEAT
XFW-4400

Versatile bench perfect for seated dumbbell exercises. Includes wheels for easy moving.

- + Fixed back pad angled at 5 degrees for proper support
- + Heavy-duty, ball-bearing wheels for easy movement
- + Floor anchor provisions in frame

WEIGHT PLATE TREE
XFW-6300

6 weight posts accommodate more than 1,000 lbs. of Olympic plates and collars.

- + 6 weight posts for maximum storage
- + Base frame accommodates 1,000 lbs / 454 kg of weight and utilizes a four foot design for maximum stability
- + Each of the four lower weight horns accommodates a maximum of 4 x 45 lbs / 20 kg plates for a total of 16 plates on the lower level
- + Each of the two upper weight horns accommodates a maximum of 4 x 35 lbs / 15 kg plates for a total of 8 plates on the upper level

VERTICAL KNEE RAISE/ DIP
XFW-6400

Elbow pads and dip handles designed to provide stability and encourage proper body positioning during exercise.

- + Contoured elbow pads and back pad angled 15 degrees for support and proper anatomical alignment during knee raise exercise
- + Rubber molded foot plates ease entry and exit
- + Floor anchor provisions in frame

ABDOMINAL/ DECLINE BENCH
XFW-5300

Our XFW-5300 Abdominal Decline Bench is adjustable from -30° to +10° in 5° increments. Dual roller assembly for proper support during exercise and equipped with wheels for easy transportation.

- + 9 adjustments from -30° to +10° in 5° increments
- + Gas cylinder assist for adjustment of the back pad
- + Wheels for easy moving

FLAT BENCH
XFW-7000

Multi-use exercise bench with wheels and handle for easy moving and small base for unrestricted use.

- + Small base end for unrestricted use
- + Heavy-duty ball-bearing wheels and ergonomic lifting handle provide mobility
- + Floor anchor provisions in frame

FLAT/ INCLINE/ DECLINE BENCH XFW-7500

Versatile bench adjusts into 11 positions ranging from 10° decline to 85° incline. Seat pad adjusts to 3 positions to accommodate multiple exercise positions. Lifting handle and rear wheels for portability.

- + Easily adjustable, 11-position bench ranging from -10 degrees to 85 degrees
- + 3-position seat pad to accommodate multiple exercise positions
- + Easy-to-read Lexan label indicates back pad angle
- + Heavy-duty ball-bearing wheels coupled with ergonomic lifting handle provide mobility
- + Floor anchor provisions in frame

FUNCTIONAL TRAINERS

TRUE FITNESS STRENGTH:
FUNCTIONAL TRAINERS

VERSATILE + FUNCTIONAL

Offering unparalleled versatility, TRUE functional trainers come equipped with a range of integrated accessories, allowing your members to customize and vary their workouts according to their preferences within a compact footprint. And, like all TRUE strength equipment, you can count on durable construction and quality components.

USER-FRIENDLY FEATURES

Easily accessible and clear exercise placards provide a convenient reference for targeted muscle groups and correct machine usage.

SPACE-EFFICIENT DESIGN

Maximize every inch of your facility with a TRUE functional trainer. Users can benefit from full and varied workouts for each body part within a compact footprint.

FUNCTIONAL TRAINER
XFT-900

The premium commercial-quality XFT-900 Functional Trainer provides dozens of upper and lower body exercises, with unique vertical adjustment columns that rotate 360 degrees to allow unrestricted movement in multiple planes.

- + Vertical adjustment columns rotate 360 degrees to allow unrestricted movement in multiple planes
- + Multi-position chin bar accommodates optional suspension bracket for suspension training
- + Fold-down foot platform assists access to chin bar and retracts into frame when not in use
- + Integrated storage hooks conveniently store wide range of training accessories

FUNCTIONAL TRAINER
FT-900

Provide your members with dozens of upper and lower body exercises with the premium FT-900 Functional Trainer. Constructed with commercial-grade materials and integrated with multiple storage options and features, the FT-900 is ideal option for your member's functional strength training.

- + Multi-position chin bar accommodates optional suspension bracket for suspension training
- + Fold-down foot platform assists access to chin bar and retracts into frame when not in use
- + Integrated storage hooks conveniently store wide range of training accessories

FLEXIBILITY

**TRUE FITNESS FLEXIBILITY:
STRETCH CAGES**

DEDICATED PLACE TO STRETCH

Give your users a dedicated place to warm up and cool down with the TRUE Stretch. The TRUE Stretch Cage's design allows users to perform multiple beneficial stretch variations in all three planes of motion that engage the entire body, specific target zones, and different needs.

LONG-LASTING QUALITY

Like all TRUE equipment, it's built to endure the rigors of daily heavy usage. The TRUE Stretch is built with an 11-gauge welded steel frame protected by a black powder coat finish.

USER-FRIENDLY FEATURES

With its easy-to-follow stretching guides and stable structural support, our stretch cage provides a safe platform for users to activate their muscles and enhance their flexibility.

TRUE STRETCH CAGE
