

# SAVE GUAJOME PARK!

Citizens of Oceanside, let your council know that we

## **OPPOSE THE PROPOSED MELROSE LINK**

### *Why?*

- This project is fiscally irresponsible. Estimated cost \$42 Million and creates NO direct benefit to the Oceanside citizens at large.
- 2010 Traffic studies have shown that this link would provide less than 1 minute improvement for traffic and emergency services.
- This project would DIVERT OCEANSIDE FUNDS from current road improvements for Oceanside's residents and neighborhoods, to ALLOW MORE COMMUTER THRU TRAFFIC to and from Hwy 15.
- This project was shown in 2010 to have detrimental impacts to Guajome Park wildlife and endangered species with increased noise, air pollution and traffic beyond comprehension.
- Millions of Oceanside taxpayer money will be spent to take private lands through eminent domain from willing and unwilling property owners, only to fragment existing neighborhoods.
- City 's Staff & Planning Commission BOTH OPPOSED this project!
