CAREER TRAINING EMT

EMERGENCY MEDICAL TECHNICIAN PROGRAM

Are you interested in becoming a licensed emergency medical technician? The St. Charles EMT Training Program, which also prepares participants for state and national licensing exams, provides the foundational training for emergency care providers. Through classroom instruction, practical skill development, and clinical observation in an ambulance and hospital emergency room, students will gain a foundational understanding of emergency care techniques. Students who complete this program are eligible to take the National Registry Exam (NREMT), which is necessary for Missouri certification.

PLEASE NOTE: Prospective students must attend a mandatory orientation to obtain the requirements for the program and pass the entrance exam to enroll. You must be 18 or older and provide proof of a high school diploma, GED/ HISET, or college transcript. A Missouri criminal background check is required for all incoming students.

(No class: 11/10, 11/26) *WIOA

CAREER TRAINING

MEDICAL ASSISTANT

NEW MEDICAL ASSISTANT PROGRAM (CCMA)

Prepare for a rewarding career in healthcare with our comprehensive 18-week accelerated Certified Clinical Medical Assistant (CCMA) program. This course combines classroom instruction and hands-on training to develop the essential skills needed for success in clinical and administrative settings. You will prepare for the CCMA exam offered by the National Healthcareer Association (NHA) for certification.

Through this program, students will gain expertise in key areas such as:

- Assisting providers with exams and office procedures
- Patient care, including taking and recording vital signs, administering injections, and medications
- Phlebotomy, EKG administration
- Front-office procedures, including patient check-in/out and medical documentation

PHLEBOTOMY

PHLEBOTOMY TECHNICIAN TRAINING PROGRAM

The St. Charles Phlebotomy Training program is designed to equip students with the fundamental skills required to become phlebotomists in diverse job opportunities. This comprehensive 8-week course includes 48 hours of lectures, hands-on skills labs, and assessments. Topics covered include anatomy and physiology, blood collection theory and handling, safety, and relevant phlebotomy laws and regulations.

Upon completing the course, you will take the Certified Phlebotomy Technician (CPT) exam provided by the National Healthcareer Association (NHA). ***WIOA**

MEDICAL CODING

NEW PROFESSIONAL MEDICAL CODER CERTIFICATION (CPC)

Prerequisite: Basic Computer Skills

Gain the skills to succeed in medical coding and prepare for the AAPC (American Academy of Professional Coders) CPC certification. Earning your CPC certification not only boosts your credibility as a skilled medical coder but also opens doors to greater career advancement and higher earnings in the healthcare industry. Employers value certified coders for their expertise in accurately coding procedures and diagnoses, resulting in increased job stability and opportunities for professional growth.

Throughout the 16-week program, you will master essential coding systems like ICD-10-CM, CPT, and HCPCS, learn to navigate complex regulatory requirements, and practice real-world coding scenarios to ensure accuracy and compliance. In addition, students receive access to a free medical terminology curriculum to strengthen coding proficiency and boost exam recognition. Take the first step toward advancing your career in medical coding—enroll now to earn your certification! ***WIOA** (No class: 11/26)

CAREER TRAINING

MACHINING

NEW CNC PROGRAMMING, SETUP, AND OPERATIONS

CNC programmers are the minds behind modern manufacturing, turning designs into precise, high-quality parts. In this hands-on training program, students gain a strong foundation in computer numerical control (CNC) and develop the technical skills needed to meet today's industry standards.

What You'll Learn

- Set up and operate CNC lathes and mills
- Establish machine coordinates and tool offsets
- Write and edit G-code programs
- Interpret blueprints and job specifications
- Perform machining operations such as drilling, tapping, boring, and turning
- Use industry-standard measuring tools to ensure accuracy and quality

Students gain real-world machining experience while building technical confidence and problem-solving skills in a shop-based learning environment. Upon successful completion, students earn a Certificate of Completion representing 72 instructional hours. *WIOA

HVAC

HEATING AND AIR CONDITIONING TECHNOLOGY

This course introduces the core principles of refrigeration, heat transfer, and residential HVAC systems. Students will learn how to:

- Understand and apply basic heat and refrigeration theory
- Read wiring schematics
- Test, diagnose, and service residential air conditioning units
- Work with automatic and electrical controls, including electric heat, gas furnaces, and heat pumps

Instruction combines classroom learning with hands-on shop experience to reinforce technical skills. This course prepares students for the EPA Type I and II Certification exam. Note: Type III (for commercial systems) is not included; Universal Certification requires all three types. *WIOA

Do You Need Training for Your Workforce?

Through Missouri One Start, ACE offers customized training for companies in the St. Charles area with the goal of achieving higher workforce performance.

ACE's focus on training and upskilling the local workforce is invaluable to business success in the area.

Our goal is to enhance employee productivity, with a primary focus on the following key areas:

- Automation Technology Training
- Coaching
- Lean Manufacturing Tools/Techniques
- Team Building
- Technical Writing and Services

Additionally, we offer specialized trade and technical skills training in:

- Computer Technology
- HVAC
- Precision Machining
- Welding

NEW ARC WELDING: FOUNDATIONS TO ADVANCED TECHNIQUES

Build strong, job-ready welding skills in this hands-on Shielded Metal Arc Welding (SMAW) course designed for beginners and advancing students alike. Training begins with welding safety, equipment setup, and basic bead-and-joint welding before progressing to multi-pass welds and out-of-position welding, including horizontal, vertical, and overhead techniques.

Students also gain introductory experience with pipe welding, joint preparation, and oxy-fuel cutting, along with material prep skills used in real-world fabrication and construction. Emphasis is placed on proper technique, weld quality, and industry-standard practices.

This course is ideal for individuals pursuing entry-level welding employment, expanding their trade skills, or preparing for advanced welding training. *The supply list will be provided on the invoice.* *WIOA
 (No class: 9/7, 10/26, 11/9, 11/10)

AUTOMOTIVE

TWO AND FOUR-CYCLE ENGINE REPAIR

Learn how to diagnose and repair common issues in small engines. This hands-on class covers fuel and electrical system basics, troubleshooting techniques, tune-ups, valve adjustments, carburetor work, and routine engine care and maintenance. To work on in class, bring your 2-cycle equipment (mower, trimmer, chainsaw) or 4-cycle engine (tiller, riding mower). *WIOA

CAREER TRAINING/ COMPUTERS

ELECTRICAL

RESIDENTIAL WIRING- INSTALLATION & CODES

This course introduces students to the fundamentals of residential electrical systems with a strong emphasis on safety, basic electrical theory, and compliance with the 2023 National Electrical Code (NEC). Students will learn how to safely install wiring and electrical components in residential settings using industry-standard materials and techniques. Through a mix of lectures and hands-on labs, the course covers key concepts such as:

- Electrical safety protocols
- Wiring methods and materials
- Raceway installation, code compliance, and industry best practices

The supply list will be provided on the invoice.

INSPECTOR

NEW RESIDENTIAL BUILDING INSPECTOR

An in-depth look at the 2021 International Residential Code (IRC)

Are you interested in learning about the requirements for constructing houses or undertaking residential projects such as decks, basement finishes, remodels, or detached garages? Or are you new to the field or aspiring to become a building inspector? This course provides comprehensive guidance on navigating building codes to address a variety of code-related questions.

In this course, you will learn to:

- Navigate the building code effectively
- Interpret and understand code provisions
- Apply building codes to the residential plan review and inspection processes
- Prepare for the ICC B-1 Exam (exam not included)

SCAMS & FRAUD

PROTECTING YOURSELF FROM ONLINE SCAMS AND FRAUD

Online scams are everywhere: fake emails, phony investment offers, and suspicious messages on social media, and they're getting harder to detect. This course teaches you how to identify, avoid, and report scams that are hidden in texts, emails, and online platforms. You'll learn how to protect your personal information, recognize red flags, and respond confidently if you're targeted.

Throughout the course, we'll expose the tactics scammers use and give you practical strategies to outsmart them. Expect real-world examples, clear action steps, and guidance on what to do if you or someone you know falls victim to a scam.

IMPROV

NEW IMPROV FOR EVERYDAY CONFIDENCE & COMMUNICATION

Improv (short for improvisation) is a fun, interactive way to build real-world communication skills. In this class, you'll practice thinking on your feet, listening closely, and responding in the moment—all in a supportive, low-pressure environment. There are no scripts and no pressure to "perform perfectly."

This class isn't about becoming a comedian—it's about building confidence, connection, and ease in everyday conversations, meetings, and social situations, while having fun along the way.

Participants will:

- Build confidence when speaking and interacting with others
- Think more quickly and respond with greater ease in conversations
- Strengthen communication and active listening skills
- Deepen personal and professional connections
- Collaborate more effectively

No acting experience is required. This class is designed for everyday people who want to grow their confidence and communication skills in a welcoming, encouraging space. (No class: 5/9)

ST. CHARLES SCHOOL DISTRICT EARLY CHILDHOOD CENTER

LEARNING THROUGH PLAY, EVERY DAY.

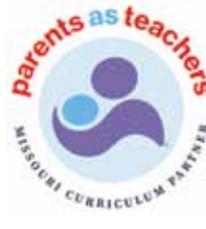

We believe in educating the whole child.

2026-27 School Year—Programming offered: 2/3/5 full days, 5 half days, and before/after school care. To apply, children must have turned 3 years old on or before July 31, 2026. Students who turned 5 years old by July 31, 2026 must register for kindergarten at their home elementary school.

ECC is accepting district residents and current school employees due to the high demand within our school community.

The St. Charles School District Early Childhood Center is fully accredited through the Missouri Accreditation of Programs for Children and Youth.

St. Charles School District Parents as Teachers Program

The Parents as Teachers program is designed for families with children pre-natal through five years of age. Services include developmental screenings, home visits and group connections events for all families. These services are free to district residents.

- Home Visits
- Developmental Screenings
- Group Connections
- Resource Connection

Did You Know?

- You are your child's first and most important teacher.
- Your child's brain grows more rapidly in the first three years of life than at any other time.
- Positive attachment to parents and caregivers in the first three years of life affects your child's life-long success.

REGISTRATION: We recommend registering at least 10 days before the start date of a class. Many classes fill quickly and others may be canceled due to low enrollment.

CLASS CANCELLATION: Classes are subject to cancellation if minimum enrollment is not met. If St. Charles Adult and Community Education cancels a class, you will be notified by phone and/or email. You will be given the option to receive a full refund of your registration fee, transfer to another class, or receive a credit for future use.

REFUND POLICY:

NON-REFUNDABLE DEPOSIT—Any course with a non-refundable deposit will forfeit the deposit if canceled. The remaining balance will be refunded if the ACE office is notified at least two full business days before the class start date; otherwise, it is non-refundable. You may choose to keep your funds on credit for future use; in that case, the deposit will not be forfeited. Credits must be used within 12 months of the cancellation. All standard cancellation rules apply.

ALL OTHER COURSES—To receive a refund, you must notify the ACE office at least two full business days before the class start date. A \$10 cancellation fee will apply; otherwise, the full balance is non-refundable. If you choose to keep your funds on credit for future use, the \$10 fee is waived. Credits must be used within 12 months of the cancellation. All standard cancellation rules apply.

CHILDREN: Youth under age 16 may attend adult classes only if accompanied by a registered adult and at the discretion of the instructor.

SUPPLIES: Textbooks and materials will be distributed on the first night of class. We cannot guarantee you will receive a textbook on the first night of class if you register less than 48 hours of the class start time. If supplies are required, a supply list will be printed on the invoice or provided by the instructor.

EOP: We are an equal-opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities. Students who need accommodations are encouraged to call the office for assistance.

WEATHER CLOSURES: In the case of inclement weather, the City of St. Charles R-VI School District's closing schedule is generally followed. If canceled, classes will be rescheduled and you will be notified.

PRIVACY: Adult education staff is only permitted to discuss class and student records with the registered adult student and not the parent, grandparents, spouses, or others.
