CAREER TRAINING

EMT

Emergency Medical Technician Program

Are you interested in becoming a licensed emergency medical technician? The St. Charles EMT Training Program, which also prepares participants for state and national licensing exams, provides the foundational training for emergency care providers. Through classroom instruction, practical skill development, and clinical observation in an ambulance and hospital emergency room, students will gain a foundational understanding of emergency care techniques. Students who complete this program are eligible to take the National Registry Exam (NREMT), which is necessary for Missouri certification.

PLEASE NOTE: Prospective students must attend a mandatory orientation to obtain the requirements for the program and pass the entrance exam to enroll. You must be 18 or older and provide proof of a high school diploma, GED/ HISET, or college transcript. A Missouri criminal background check is required for all incoming students.

(No class: 2/26, 3/24, 3/26) ***WIOA**

CAREER TRAINING

CPR

CPR & Stop The Bleed Training

This training will cover the following topics:

Part 1

- Identifying life-threatening emergencies and how to provide prompt care
- Adult, child, and infant CPR with AED certification

Part 2

Bleeding injuries can occur at any location. Rather than being a bystander, you can take action by becoming an immediate responder.

- Learn how to identify life-threatening bleeding and respond promptly and effectively to control it.

Participants will practice techniques on the floor. Comfortable clothing is recommended.

MEDICAL ASSISTANT

NEW Medical Assistant Program (CCMA)

Prepare for a rewarding career in healthcare with our comprehensive 18-week accelerated Certified Clinical Medical Assistant (CCMA) program. This course combines classroom instruction and hands-on training to develop the essential skills needed for success in clinical and administrative settings. You will prepare for the CCMA exam offered by the National Healthcareer Association (NHA) for certification.

Through this program, students will gain expertise in key areas such as:

- Assisting providers with exams and office procedures
- Patient care, including taking and recording vital signs, administering injections, and medications
- Phlebotomy, EKG administration
- Front-office procedures, including patient check-in/out and medical documentation

PHLEBOTOMY

Phlebotomy Technician Training Program

The St. Charles Phlebotomy Training program is designed to equip students with the fundamental skills required to become phlebotomists in diverse job opportunities. This comprehensive 8-week course includes 48 hours of lectures, hands-on skills labs, and assessments. Topics covered include anatomy and physiology, blood collection theory and handling, safety, and relevant phlebotomy laws and regulations.

Upon completing the course, you will take the Certified Phlebotomy Technician (CPT) exam provided by the National Healthcareer Association (NHA). ***WIOA**

CAREER TRAINING

MEDICAL CODING

Certified Professional Coder (CPC)

Prerequisite: Basic Computer Skills

Gain the skills to succeed in medical coding and prepare for the AAPC (American Academy of Professional Coders) CPC certification. Earning your CPC certification not only boosts your credibility as a skilled medical coder but also opens doors to greater career advancement and higher earnings in the healthcare industry. Employers value certified coders for their expertise in accurately coding procedures and diagnoses, resulting in increased job stability and opportunities for professional growth.

Throughout the 16-week program, you will master essential coding systems like ICD-10-CM, CPT, and HCPCS, learn to navigate complex regulatory requirements, and practice real-world coding scenarios to ensure accuracy and compliance. In addition, students receive access to a free medical terminology curriculum to strengthen coding proficiency and boost exam recognition. Take the first step toward advancing your career in medical coding—enroll now to earn your certification!

MACHINING

NEW Machining and CNC Fundamentals

Start your machining journey or take your skills to the next level with this hands-on course that blends manual machining fundamentals with an introduction to CNC programming and operations. This course lays the groundwork for a machining career, whether you are new to the trade or building on existing skills.

Students will gain experience using shop tools such as the drill press, band saw, surface grinder, engine lathe, and vertical mill while learning to read blueprints, take precise measurements, and create basic G-code programs to operate CNC mills and lathes. You will perform real-world machining tasks, including drilling, tapping, boring, and turning, while building technical skills and personal confidence.

At the end of the course, students receive a Certificate of Completion for 72 instructional hours.

HVAC

Heating and Air Conditioning Technology

This course introduces the core principles of refrigeration, heat transfer, and residential HVAC systems. Students will learn how to:

- Understand and apply basic heat and refrigeration theory
- Read wiring schematics
- Test, diagnose, and service residential air conditioning units
- Work with automatic and electrical controls, including electric heat, gas furnaces, and heat pumps

Instruction combines classroom learning with hands-on shop experience to reinforce technical skills. This course prepares students for the EPA Type I and II Certification exam. Note: Type III (for commercial systems) is not included; Universal Certification requires all three types. ***WIOA**

CAREER TRAINING

ELECTRICAL

Residential Wiring–Installation & Codes

This course introduces students to the fundamentals of residential electrical systems with a strong emphasis on safety, basic electrical theory, and compliance with the 2023 National Electrical Code (NEC). Students will learn how to safely install wiring and electrical components in residential settings using industry-standard materials and techniques. Through a mix of lectures and hands-on labs, the course covers key concepts such as:

- Electrical safety protocols
- Wiring methods and materials
- Raceway installation, code compliance, and industry best practices

The supply list will be provided on the invoice. ***WIOA**

INSPECTOR

NEW Residential Building Inspector

An in-depth look at the 2021 International Residential Code (IRC)

Are you interested in learning about the requirements for constructing houses or undertaking residential projects such as decks, basement finishes, remodels, or detached garages? Or are you new to the field or aspiring to become a building inspector? This course provides comprehensive guidance on navigating building codes to address a variety of code-related questions.

In this course, you will learn to:

- Navigate the building code effectively
- Interpret and understand code provisions
- Apply building codes to the residential plan review and inspection processes
- Prepare for the ICC B-1 Exam (exam not included)

Do You Need Training for Your Workforce?

Through Missouri One Start, ACE offers customized training for companies in the St. Charles area with the goal of achieving higher workforce performance.

ACE's focus on training and upskilling the local workforce is invaluable to business success in the area.

Our goal is to enhance employee productivity, with a primary focus on the following key areas:

- Automation Technology Training
- Coaching
- Lean Manufacturing Tools/Techniques
- Team Building
- Technical Writing and Services

Additionally, we offer specialized trade and technical skills training in:

- Computer Technology
- HVAC
- Precision Machining
- Welding

SCAMS & FRAUD

NEW Protecting Yourself From On-line Scams and Fraud

Online scams are everywhere: fake emails, phony investment offers, and suspicious messages on social media, and they're getting harder to detect. This course teaches you how to identify, avoid, and report scams that are hidden in texts, emails, and online platforms. You'll learn how to protect your personal information, recognize red flags, and respond confidently if you're targeted.

Throughout the course, we'll expose the tactics scammers use and give you practical strategies to outsmart them. Expect real-world examples, clear action steps, and guidance on what to do if you or someone you know falls victim to a scam.

VOICE ACTING

Getting Paid to Talk-An Introduction to Voice Acting

From audiobooks to advertisements and beyond, we encounter recorded voices everywhere! In this one-night, live online class, your instructor will take you behind the scenes in the voice-over field for a fun and realistic look at how the voice-over field really works. You'll gain an inside perspective on developing skills and how to leverage your voice's strengths and interests, and more. Because this class is live, you'll have the opportunity to ask questions! Additionally, there will be a chance for a one-on-one script read.

WRITING

NEW Finish the Book-Part I

If you are an aspiring author with three chapters, three pages, or three paragraphs, and you're interested in finishing the book, this class is for you! You will learn how to increase your writing productivity, avoid common mistakes, improve pacing, and strengthen conflict. Also included is information on editors, agents, and paths to publication, both traditional and indie (self)-publishing.

REGISTRATION: We recommend registering at least 10 days before the start date of a class. Many classes fill quickly and others may be canceled due to low enrollment.

CLASS CANCELLATION: Classes are subject to cancellation if minimum enrollment is not met. If St. Charles Adult and Community Education cancels a class, you will be notified by phone and/or email. You will be given the option to receive a full refund of your registration fee, transfer to another class, or receive a credit for future use.

REFUND POLICY: For courses lasting less than eight weeks, you must notify the ACE office at least two full business days before the class start date to receive a refund. A \$10 cancellation fee will be applied. If you elect to keep your funds on account for future use, the \$10 cancellation fee will be waived. If the request is received less than two full business days before the start of class, no refunds, transfers, or credits will be issued.

For courses over eight weeks, a non-refundable registration fee applies. If you elect to cancel the course, you must notify the ACE office to receive a refund of the remaining balance. If the request is received less than two full business days before the start of class, no refunds, transfers, or credits will be issued.

CHILDREN: Youth under age 16 may attend adult classes only if accompanied by a registered adult and at the discretion of the instructor.

SUPPLIES: Textbooks and materials will be distributed on the first night of class. We cannot guarantee you will receive a textbook on the first night of class if you register less than 48 hours of the class start time. If supplies are required, a supply list will be printed on the invoice or provided by the instructor.

EOP: We are an equal-opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities. Students who need accommodations are encouraged to call the office for assistance.

WEATHER CLOSURES: In the case of inclement weather, the City of St. Charles R-VI School District's closing schedule is generally followed. If canceled, classes will be rescheduled and you will be notified.

PRIVACY: Adult education staff is only permitted to discuss class and student records with the registered adult student and not the parent, grandparents, spouses, or others.
