#### Candidates for Crystal Bay Crystal Cove Homeowners Association Board for 2026

#### **Michael Biers**

- I am an electrical engineer with 42 years of experience in the aerospace industry. My career has equipped me with strong problem-solving, project management, and collaboration skills that I believe would serve the HOA well.
- As a resident of Crystal Bay/Crystal Cove, I am committed to helping maintain the quality, value, and sense of community that make our neighborhood a great place to live.

#### **Nick Shipe**

- I am a current full-time resident on 270a where I own 4 lots. I have been living full time in the community for 2 years and split between Fort Wayne and our Hamilton lot for one of those.
- I am currently director of transportation at circle logistics, I have a family of 4, and look to bring assistance and resolutions to as being part of the board.

#### **Connie Kracher**

- My husband Kyle and I bought land in 2015 and built our home on the north side of Crystal Cove in 2017. We both grew up on lakes in Michigan and Indiana. We love our neighborhood and strongly support the CBCC, HLA, and Town of Hamilton, including attending and participating in many of the CBCC and Town of Hamilton meetings through the years.
- My personal background: I am a healthcare specialist, research administrator, and professor for Purdue University. I have also taught for Indiana University and have served on numerous committees at both universities. As a CBCC board member, I would be fair and support the mission of the CBCC and DCC in maintaining the integrity of our beautiful neighborhood. I would be honored to serve the CBCC if elected.

#### **Bob Mason**

- I'm a retired maintenance man, lifelong tinkerer, and proud husband to my amazing wife Deb. For the past 4 years, we've called Hamilton Lake home, living at 320 Lane 280 in Hamilton, Indiana — where the views are great, the neighbors are friendly, and the projects never quite stop.
- I spent my working years elbow-deep in electrical systems and refrigeration units, keeping things running and occasionally wondering who designed this mess. I served on the Whisper Rock HOA board for a while — which taught me that fixing machines is sometimes easier than fixing meetings. Now retired, I enjoy the slower pace, lake life, and sharing stories from a career full of sparks (literal and figurative).
