Book keeping didn't align with payment – people paid but didn't get a jersey

Some people signed up on Centex not MAYA

Next year needs to be channeled through one entity

We are D2 – lesser than D1

We paid for 73 uniforms signed up through Google

Charles paid for some jerseys out of his own pocket

Have to communicate in the notes for fall registration which age group to put kids in if not going by D/O/B

Sports connect does not allow sponsorship payments for every kid can sports

We did not do a Google document “are you interested in fall ball?” without the registration portion so interest was lost for coaches to “recruit” kids

We are using Sports connect for fall – we have to find a workaround

It also doesn't link the deposit to the bank to a kid

Add an option for every kid sports

Sports connect does not accept cash or any other payment like CashApp or Venmo
