

Cypress Landing May Newsletter

Association Website - www.cypresslandingtownhomes.com

This is a reminder to go check out the Cypress Landing website if you have not done so already. It is a great resource that gives all homeowners access to anything they need regarding the homeowners' association. The website contains all financial reports and governing documents, including the association restrictions, articles of incorporation, plat maps, and the association budget. The website also has a news section where homeowners can find the monthly newsletters, and it has a section showing how to contact us if you have any concerns. Last but not least, there is a section that allows homeowners to pay their dues online, which we highly encourage. Click the link above to see all of these features and more!

Weed Reminder

It has been very hot and wet in recent weeks, which is causing weeds to grow fast. We encourage homeowners to pull these weeds to keep your home looking nice and clean. Just the task of pulling weeds can make a huge difference in your overall landscaping!
