

Response after Tournament

Good afternoon (COACH NAME),

Thank you so much for your email, this is so exciting!

I appreciate you taking the time to reach out and provide me with some more information. I will fill out the online recruiting form tonight.

Personalize section below. (Personal and team highlights from tournament.)

Over the weekend, I really enjoyed the competitive play at the Shooting Stars tournament. The U16 NJ Grit Ruby team earned the gold medal for Pool B. It was an awesome experience! My U16 team played a high paced, high energy game against Freedom on Saturday afternoon. During the game I played midfield and defense and was able to really be a part of a great 1-0 win. The weekend was a great opportunity to experience different types of play and style and a great opportunity to advance our NJ Grit team play as well as my own personal play!

I am thrilled at the opportunity to learn more about the (COLLEGE) field hockey program. I would love to continue to work through the college recruiting process with you and the coaching staff. I could definitely see myself at (COLLEGE) and am very interested in the possibility of becoming a (MASCOT). As I continue to research schools I was extremely impressed by (COLLEGE) (class size, winning record, season schedule, a specific major, etc. *make it personal and make it seem like you've done your research on the school. It will make them think you are very interested!)

As I begin to receive video and film from the weekend I will be sure to send it to you. I am also currently working on a field hockey resume and will be sending that along as well. Please reach out with any recruiting updates, camps, clinics. Etc. I look forward to speaking with you in the future. Have a great week!

Best,
