Currencies

| BRL/INR (Brazilian Real/INR) | CHF/INR (Swiss Franc/INR) |
|---|--|
| • Current Data : BRL/INR is trading close to its 52-week low at 14.9, with a high of 19.93 over the past year. | • Current Data : CHF/INR is trading at 98.49, near its 52-week high of 99.98. |
| Opportunity: The currency is currently undervalued compared to its historical highs. Recent global market volatility may push investors towards safer currencies like CHF. Potential Risk: If global markets stabilize, demand for safe-haven assets like CHF may decrease.
