

COMEDY Science Show

Educational Interactive Science Fun!

LAB RATS SCIENCE

Dear Event Coordinator,

Are you tired of “lame” science presentations being offered by “kids” who have just been trained to do the job? I understand. Many years ago, I was the one running the business of Mad Science and hiring these very students. As the current Principal of a private school in Ottawa - I understand the value of a dollar and the desire to have quality programming vs. a substandard presentation. With over 25 years of *edutainment* experience ranging from Cruise Ships to Birthday Parties and having authored over 80% of the original **Mad Science** curriculum - You will not be disappointed. I, Mad Mike (aka School Principal), promise that your guests will learn something new while having fun!

The Science of Magic Show (20-50 minutes)

The Science of Magic Show is making local magicians furious! With a whimsical blend of Science, Magic, Hairspray and Laugh-Your-Head-Off Audience Participation, Mad Mike takes learning to a new level! In his fast-paced and highly visual demonstrations of core curriculum science principles, Mad Mike reveals some of the basic mysteries of magic and the science behind many of the illusions we often see on television.

The Fire and Ice Show (20-50 minutes)

Also known as the Ying and Yang of Science. Using very visual demonstrations Mad Mike will educate participants about the scientific principals of fire. We will also educate the audience about the fascinating principals of Frozen Carbon Dioxide Gas (Dry Ice*). From bubbling potions to a creepy cemetery effect covering the whole gym floor, Mad Mike guarantees that kids will be sitting on the edge of their seats, eagerly absorbing every fun-framed minute!

** This Show is dependent on the availability of Dry Ice. Early Monday Morning Shows are not recommended. A surcharge of \$50/show is added to the cost to purchase and pick up the dry ice.*

COSTS:

Length of show and number repetitions will determine final cost.

Shows can accommodate as many guests as you wish. Please keep in mind that smaller groups create a more intimate/memorable experience

Please call for details. ►
