

# RAINBOW BRIDGE

---

## PET MEMORIAL SERVICES

### *Honouring Your Pet*

At Rainbow Bridge Pet Memorial Services, we are dedicated to offering compassionate support for you and your pet. We understand that your pet is a cherished family member, and how deeply their loss is felt. We are devoted to providing a gentle and environmentally friendly means to say farewell and to honour their memory as they journey across the rainbow bridge.

We offer an innovative method of pet aftercare called Aquamation—an alternative to traditional pet cremation that is as gentle as the flow of a running stream.

### *Introducing Aquamation*

The scientific name for this water-based process is alkaline hydrolysis. A combination of gentle water flow, warm temperatures, and alkalinity are used to accelerate the breakdown of organic materials.

*No emissions of harmful greenhouse gases or mercury*

*No burning of fossil fuels.*

*A flameless process that uses water instead of fire.*

*Over 90% energy savings when compared to flame-based cremation.*

## *Environmentally Conscious*

Aquamation is an environmentally friendly alternative to flame cremation that is as respectful to the environment as it is to your pet.

This clean and natural process does not burn any fossil fuels or release any direct emissions of greenhouse gases or mercury into the atmosphere.

Aquamation is a sustainable and energy efficient process that uses 90% less energy than traditional flame cremation and produces one tenth of its carbon footprint.

## *Tried and Trusted*

Aquamation is a trusted and reliable practice that has been used in universities and scientific industries for over 25 years in North America. It is a safe and dignified process that has been used in pet aftercare services since 2007.

## *Experienced Professionals You Can Trust*

**Dr. Patti Ryan** is an accomplished veterinarian with 30 years of experience and expertise in the pet care industry. She received her Doctor of Veterinary Medicine from the Atlantic Veterinary College and has worked in numerous clinics across Newfoundland and Labrador. Dr. Ryan also has five years of experience as an owner and partner of a successful veterinary practice.

**Andrea Power** has a diverse professional background working in the veterinary field and with both provincial and municipal government. After graduating from the University of Prince Edward Island where she completed a Bachelor of Science including the Pre-Veterinary Program, Andrea spent eight years working as a dedicated assistant to Dr. Ryan. She also has five years experience working for the Government of Newfoundland and Labrador and three years experience with the City of Mount Pearl.

*Serving  
St. John's, Mount Pearl  
and surrounding areas.*
