

SUITED AND BOOTED LATEST PRESS RELEASE

A new two-man cabaret show that offers a unique evening of fun.

Suited and Booted are a unique cabaret duo who will guarantee you a night of music, dancing entertainment and comedy you will enjoy for its memory making experience. They have devised a two-hour set that bombards the audience with colour, sound and a contrast of tints, tones and moods, through the variety of content.

Terry and Terry became firm friends because of having so much in common with their show history. They started singing in karaoke bars around Thanet and started singing together, getting requests to do more songs, and even having their own signature numbers.

On the suggestion of friends, they began forming Suited and Booted, to include many genres of music including the popular floor fillers that are country, pop of all eras, reggae, Motown, rock and roll and ballads.

But they are more than just singers, with dance experience added to routines, plus some good old-fashioned comedy sending each other up. They love the interactions with their audience and want the crowd to relax, enjoy the show but join in with well known songs, the fun and even dance during some numbers should they so wish.

They came from the professions of musical theatre, plays, circus aerial work and ballroom and Latin dance respectively. Much of their lives were spent travelling in these art forms and reaching the top in the fields of circus and dance.

Suited and Booted include several costume changes in their performances, from smart suits, hence the name of the show, to spectacle and glitz. This gives the evening a riot of colour, sparkle and visual variety. Performances can take place for corporate events, private parties, community centres, nightclubs and theatre spaces of all kinds.

They say “we formed to bring back fun, glitz and laughter in good solid showtime fun for all. We like to be offering something new and unexpected and it pays off when we hear

the public saying how much they enjoyed the two hours show because it is a combination of various aspects of live performance. “

With Suited and Booted, you can simply sit back, relax and expect the unexpected. They oversee and create the entire show themselves from all angles. Sound, content, costumes, props, and working out the running order to allow for solo and duo segments, quick changes, keeping in mind contrast in each part of the show. This is no easy task for two people keeping the pace up, but it works smoothly for the end result of each production.

There is nothing like this on the entertainment circuit nowadays, and the shows are constantly changing as Terry and Terry come up with new ideas of dance, new songs, comedy and even circus skills regularly.

It is extremely hard work, particularly the hours of rehearsal, the backstage aspects and logistics. But that hard work is a passion for Suited and Booted, as the sheer joy of putting a smile on peoples faces, creating fun laughter and songs, is worth the effort when the reaction is always one of surprise that it is a live show full of variety, and thus something for everyone.

Suited and Booted's next Ramsgate show will be at The Waterfront, Ramsgate on the 15th June commencing at 7.30pm.

Suited and Booted can be contacted for bookings for your venue or private parties and functions with their full two hour show, or a shorter one hour version depending on requirements. They are as adaptable as they are versatile and tailor the shows to your event needs.
