

LEGO THERAPY CLUB

The Lego Therapy Club at the Brain & Cognition Clinic provides a structured LEGO Serious Play program within the NDIS for both children and adults.

Lego is not just about fine dexterity and control, it has a myriad of therapeutic components.

Under the guidance of an OT, with certification in Lego Serious Play, our program is designed for maximum involvement, flow, openness, creation, innovation and ownership.

Participants must be plan or self managed.

PROGRAM BENEFITS

- Eye hand coordination.
- 3D perception
- Depth perception
- Shaping and differentiation which lead to tasking
- Lateral thinking
- Developing concepts
- Patience and tolerance
- Time Management
- Scheduling and fundamental Coding
- Team and group development
