

The Sand Lake Association is excited to announce the formation of a new committee: The Sand Lake Education Committee. The purpose of the committee is to create information that is useful to Association members for the benefit of the lake and its surrounding environment. The theme for the next year or so is **stewardship of our lake** and what that means.

Stewardship is defined by the Oxford Dictionary as: “the job of supervising or taking care of something, such as an organization or property”. We will be looking at what good stewardship means as it relates to the loons and other wildlife on the lake, fish and fish habitat, shoreline conservation, lake and boater safety and the laws, as well as other topics related to taking care of our precious resource: Sand Lake.

Members of the Education Committee include Dave Quady, Mike Walker, Al Lechleitner, Judy Holmquist, Margarete Cook, Adam Mohr and Katie McCarthy. Please feel free to contact any committee member if you have ideas or reactions to the information shared – you can send an email to educationcommittee@sandlakewi.com.
