44. **Exhibit #39** - A copy of cover page and page 282 of the "E Nihih Ka Helena I Ka Uka Puna" by the Office of Hawaiian Affairs, May 2014 - 2 pages;
45. **Exhibit #40** - A copy of County of Hawaii records of private property ownership in my subdivision, FF, that reflects ownership by 1959 had gone from Finance Reality Co. Ltd, to R.F. Tongg, then to private individuals. This means the FF was born prior to 1959, the year of Hawaii Statehood. This means individuals already owned their 1/3000 interest in all the roads as tenants in common. I provided five examples, but there are literally pages and pages of this same information at the County of hawaii property tax office - 5 pages;
46. **Exhibit #41** - A copy of a map of a plat in FF in 1997. It falsely claims Finance Reality Co. Ltd owns ALL of the FF roads. This is not true as seen in Exhibit #40, Land Court Application 1053, and elsewhere. If even one lot is owned by a private individual, then the Company cannot own All of the roads by definition and statements in the aforesaid deeds, land Court, and elsewhere. Therefore, stating Finance Reality owns the roads is a false and fraudulent statement, and false information entered into a government database. However, it shows the conspiracies between the County and Finance Reality; AND

shows the FFCA did not own the FF roads in 1997 (which is far after its' birth in 1978); AND the FFCA does NOT own the FF roads now. (See Exhibit #33 where the FFCA and County Property Tax Office enter false information into a government database) - pages;
