2020 2021 SEASON

Natives FA Club Program

Overview

Natives FA Mission Statement:

Natives FA is a California non-profit organization, dedicated to providing competitive, educational soccer opportunities to youth players under the age of nineteen. (19) Our goal will be to offer a challenging youth soccer program that provides young people an opportunity to learn good sportsmanship and achievement, through dedications and hard work. Our key objectives include:

- Establishing a positive environment with qualified, licensed coaches on excellent facilities
- Teaching fundamental and advanced individual skills, progressing to team tactics
- Helping our young people realize their individual goals, from simply having fun, through making their high school team, to scholarships in college soccer and beyond
- Encouraging individual growth and helping to develop a quality, community minded person
- Providing exposure to international competition and culture through travel and by hosting international teams in the **Natives FA** Soccer Tournament

Program Goal:

Our goal is to fulfill and surpass our **Natives FA** Mission Statement, by providing the best educational youth soccer program in the state. One essential objective of our mission statement is “Establishing a positive environment with qualified, licensed coaches on excellent facilities.” While we continue to work on obtaining better and better facilities, we have done little in the area of obtaining “qualified, licensed coaches.” The goal of this program is to recruit and hire a professional **FULL TIME** staff of coaches that will lead our club in achieving another key objective: “Helping our young people to realize their individual goals from simply having fun, through making their high school team, to scholarship in college soccer and beyond.” This program will help to build a standardized curriculum for all of the players in our club.

Program Effect on New Teams:

Team formation is the major effect on new teams. This program requires the club to work within the guidelines of a new policy regarding the acceptance of new teams. Under the new program, there are two ways a team is accepted into **Natives FA**:

1. Try-outs: This is the preferred method of accepting new teams in the club. Under direction of the Competition Committee, The Technical Director interviews and appoints a Game Coach/Trainer for the new team. The Game Coach/Trainer works closely with the Technical Staff to conduct try-outs for the new team. Once the new team has been selected, a Team Administrator is selected.
2. Assimilation: Although this is not the preferred method, this is still a viable method for gaining quality teams and valuable new members for the club. Under the new program, the Completion Committee and the Technical Director may elect to admit an existing team to **Natives FA** provided they meet the following criteria:
 - 2.1 The team pays all club registration fees.

- 2.2 The team has its own qualified, club approved, Game Coach/Trainer.
- 2.3 The team's Game Coach/Trainer or licensed representative regularly attends the coach's meetings.
- 2.4 The team must support all **Natives FA** sanctioned functions and events.

Program Effect on Returning Teams:

Existing teams are required to join this program and shall comply with all criteria defined by the Competition Committee. The criteria are as follows:

1. The team pays all club registration fees.
2. The team has its own qualified, club approved, Game Coach/Trainer.
3. The team's Game Coach/Trainer or licensed representative regularly attends the coaches meetings.
4. The team must support all **Natives FA** sanctioned functions and events.

Team Reviews:

All teams must maintain competitive records. The club president will monitor the team's record throughout the season. If the president determines that the team is in need of help, he may ask the Technical Director to appoint a member of the technical staff to mentor the team during practices and games. The purpose of this is to determine what the club can do to help the team reach its goals.

The Program:

Natives FA Club Program includes employing a technical staff including a Technical Director also known as director of coaching, Assistant Technical Director(s), and all club Game Coach/Trainers. The technical staff will have responsibility for further definition, development, and implementation of the **Natives FA** Program.

The Technical Director will report to the Competition Committee (President, Vice President) the Assistant Technical Director(s) will report to the Technical Director. The Technical Director will approve the "Game Coach/Trainer" for each team. This coach, confirmed by the Competition Committee, will have responsibility of all aspects of coaching and training the team. Each team will have a "Team Administrator" that will handle all administrative and financial aspects of the team. The Team Administrator will report directly to the Treasurer for financial reasons, and president or vice president for their gender.

Who participates in this program?

All teams at all talent levels! As the program matures, it is fully expected that the skill level of **Natives FA** Teams will improve dramatically.
