

SEED AND SUPPLY LIST

SEED LIST

All seeds and supplies subject to HST.

All seeds are organic, non GMO and untreated (except Mesclun mix and lemon sorrel, which are still untreated).

REFILLS are a measured portion for one crop of microgreens, grown in a 5"x7" grow tray or baby greens, grown in a 6" deep round tray. Refills are a great way to try a variety before buying a larger portion of seeds. Mix and match. Refills for microgreens are indicated by "MG". Refills for baby greens are indicated by "BG".
