Job Description: Bathroom remodels, cabinets and patio cover

I have used Dodge Construction several times during the past few years and have recommended Rick Dodge to my friends and neighbors. Rick completely remodeled two bathrooms for me, including removing two bathtubs and replacing one with a smaller, updated tub and one with a walk-in shower. He also removed two walls in both bathrooms which were replaced with partial walls. And a dressing table (very 1970's) was removed and replaced with a wall of built-in cupboards. Recently Rick replaced a 1970's patio cover with a new one that completely updates the back of my house. I didn't realize how terrible my old patio cover was until it was replaced!

Two of my neighbors had work done by Rick in the past month and they have raved about his work and work ethics. I learned about Dodge Construction when he completely remodeled a house across the street from me. The owners bought it with a plan to flip it which they did after Rick remodeled it.

I would highly recommend Dodge Construction for any remodeling or addition jobs, no matter how large or small.
