S4P- Course XIV

Contemporary India and Education

(7)

Activity 1

A Critical study with the help of Survey and Observation of alternative schools - Night schools, Mobile schools, child labour schools and prepare a report.

Introduction:

The development of a nation is related with the no. of educationalists and with the level of educationalists. So that educationalists are responsible for the development of education. The development of countries like Russia, Japan, U.S.A. ... are educationalists are the main reason. UNESCO in the 1980 said that the country which utilises the change and grows equal to the change that occurred in the science and technology fields. To develop education UNESCO take so many steps like Right to free and Compulsory education for the 6-14 years children. To provide education for the drop outs who stopped study

In the middle Government developed Night schools, Alternative, child labour schools for the eradication of illiteracy. and given a chance for all to study.

Main Objective:

If the situations are not supported for normal study how the alternative schools, night schools, child labour schools helps them to study on that preparation of a report.

Aims:

- ⇒ The schools like alternative, night, child labour schools are how helpful for the people who has no facilities for study because of financial problems
- ③ any other family problems
- ⇒ How the study is provided to the very poor facilities even atleast transport facilities.

- (2)
- The main objective is "Education for All."
 - To Eradicate illiteracy.
 - Curriculum should be prepared for easily study.

Preliminary Information

By this activity how the schools helpful for to improve the facilities of education for the people.

Alternative Schools:

Single Teacher schools or other schools are also called of Alternative schools.

In Our country 28% of Alternative schools are there. it means only one teacher can organise 5 classes. To provide education for very poor is its main theme.

Aspects of Alternative schools:-

- ⇒ Alternative schools are established in the very poor area for those villagers education it will be helpful.
- ⇒ One teacher organising 15 classes
- ⇒ To provide education for the students of age 5-12 years
- ⇒ Along with education Health protection is also provided.
- ⇒ To provide books and uniform freely for the students who are studying in the school.
- ⇒ Night schools:

Night schools are also called as Non-formal schools. The Report of UNESCO's International Vidyaya Commission in 1972, Importance is given to Night schools. The opinion of this commission is government spending money a lot but the people does not reach the estimates in providing education.

(5)

Formal Education schools are run when people are going for work. When the time of their coming the schools will be closed. So that this commission starts for the people who has no chance to get formal education. Right schools for the agencies of Informal Education.

Instructor is being appointed to maintain these Schools for organisation.

Mobile schools:

The main objective of this schools are to provide education for the street children, for the workers on road; Migrated people mobile schools are helpful.

The theme is to change street children in to house children as a responsible citizens.

The Aspects that are related to curriculum is provided. Home Based education is provided for the people.

(6)

People & students are not in the stage of coming to school so some tips are given to them to their daily routines and the services are to do. Speech therapy, physiotherapy are given to them to live independently.

In a month 4 times, weekly once resource person can take a place of their choice. Education is given for heavily handicapped people at their home.

Child Labour schools:

So many announcements are given to provide education for all. So many people are in our country who has no knowledge of literacy. For the eradication of labourism in our state 'Namidipudi Venkata Rangaiah' foundation is done a lot of work. The main people who work for this foundation are

Santhi Sinha, and state government and some trusts are helpful for the removal of child labourism.

According to R.T.C Act free and Compulsory education should be provided for the age of 6-14 children. On the bases UNICEF's Numericals $\frac{1}{4}$ th of child labours of world are in our country. So this to eradicates so many acts are done for this child labourism.

Recognise the child labours and join them in some special Residential schools, Bridge Course centres and provide education for them.

Professional skills are also given to them and computer knowledge is provided for them.

In Our Constitution, In the Directive.

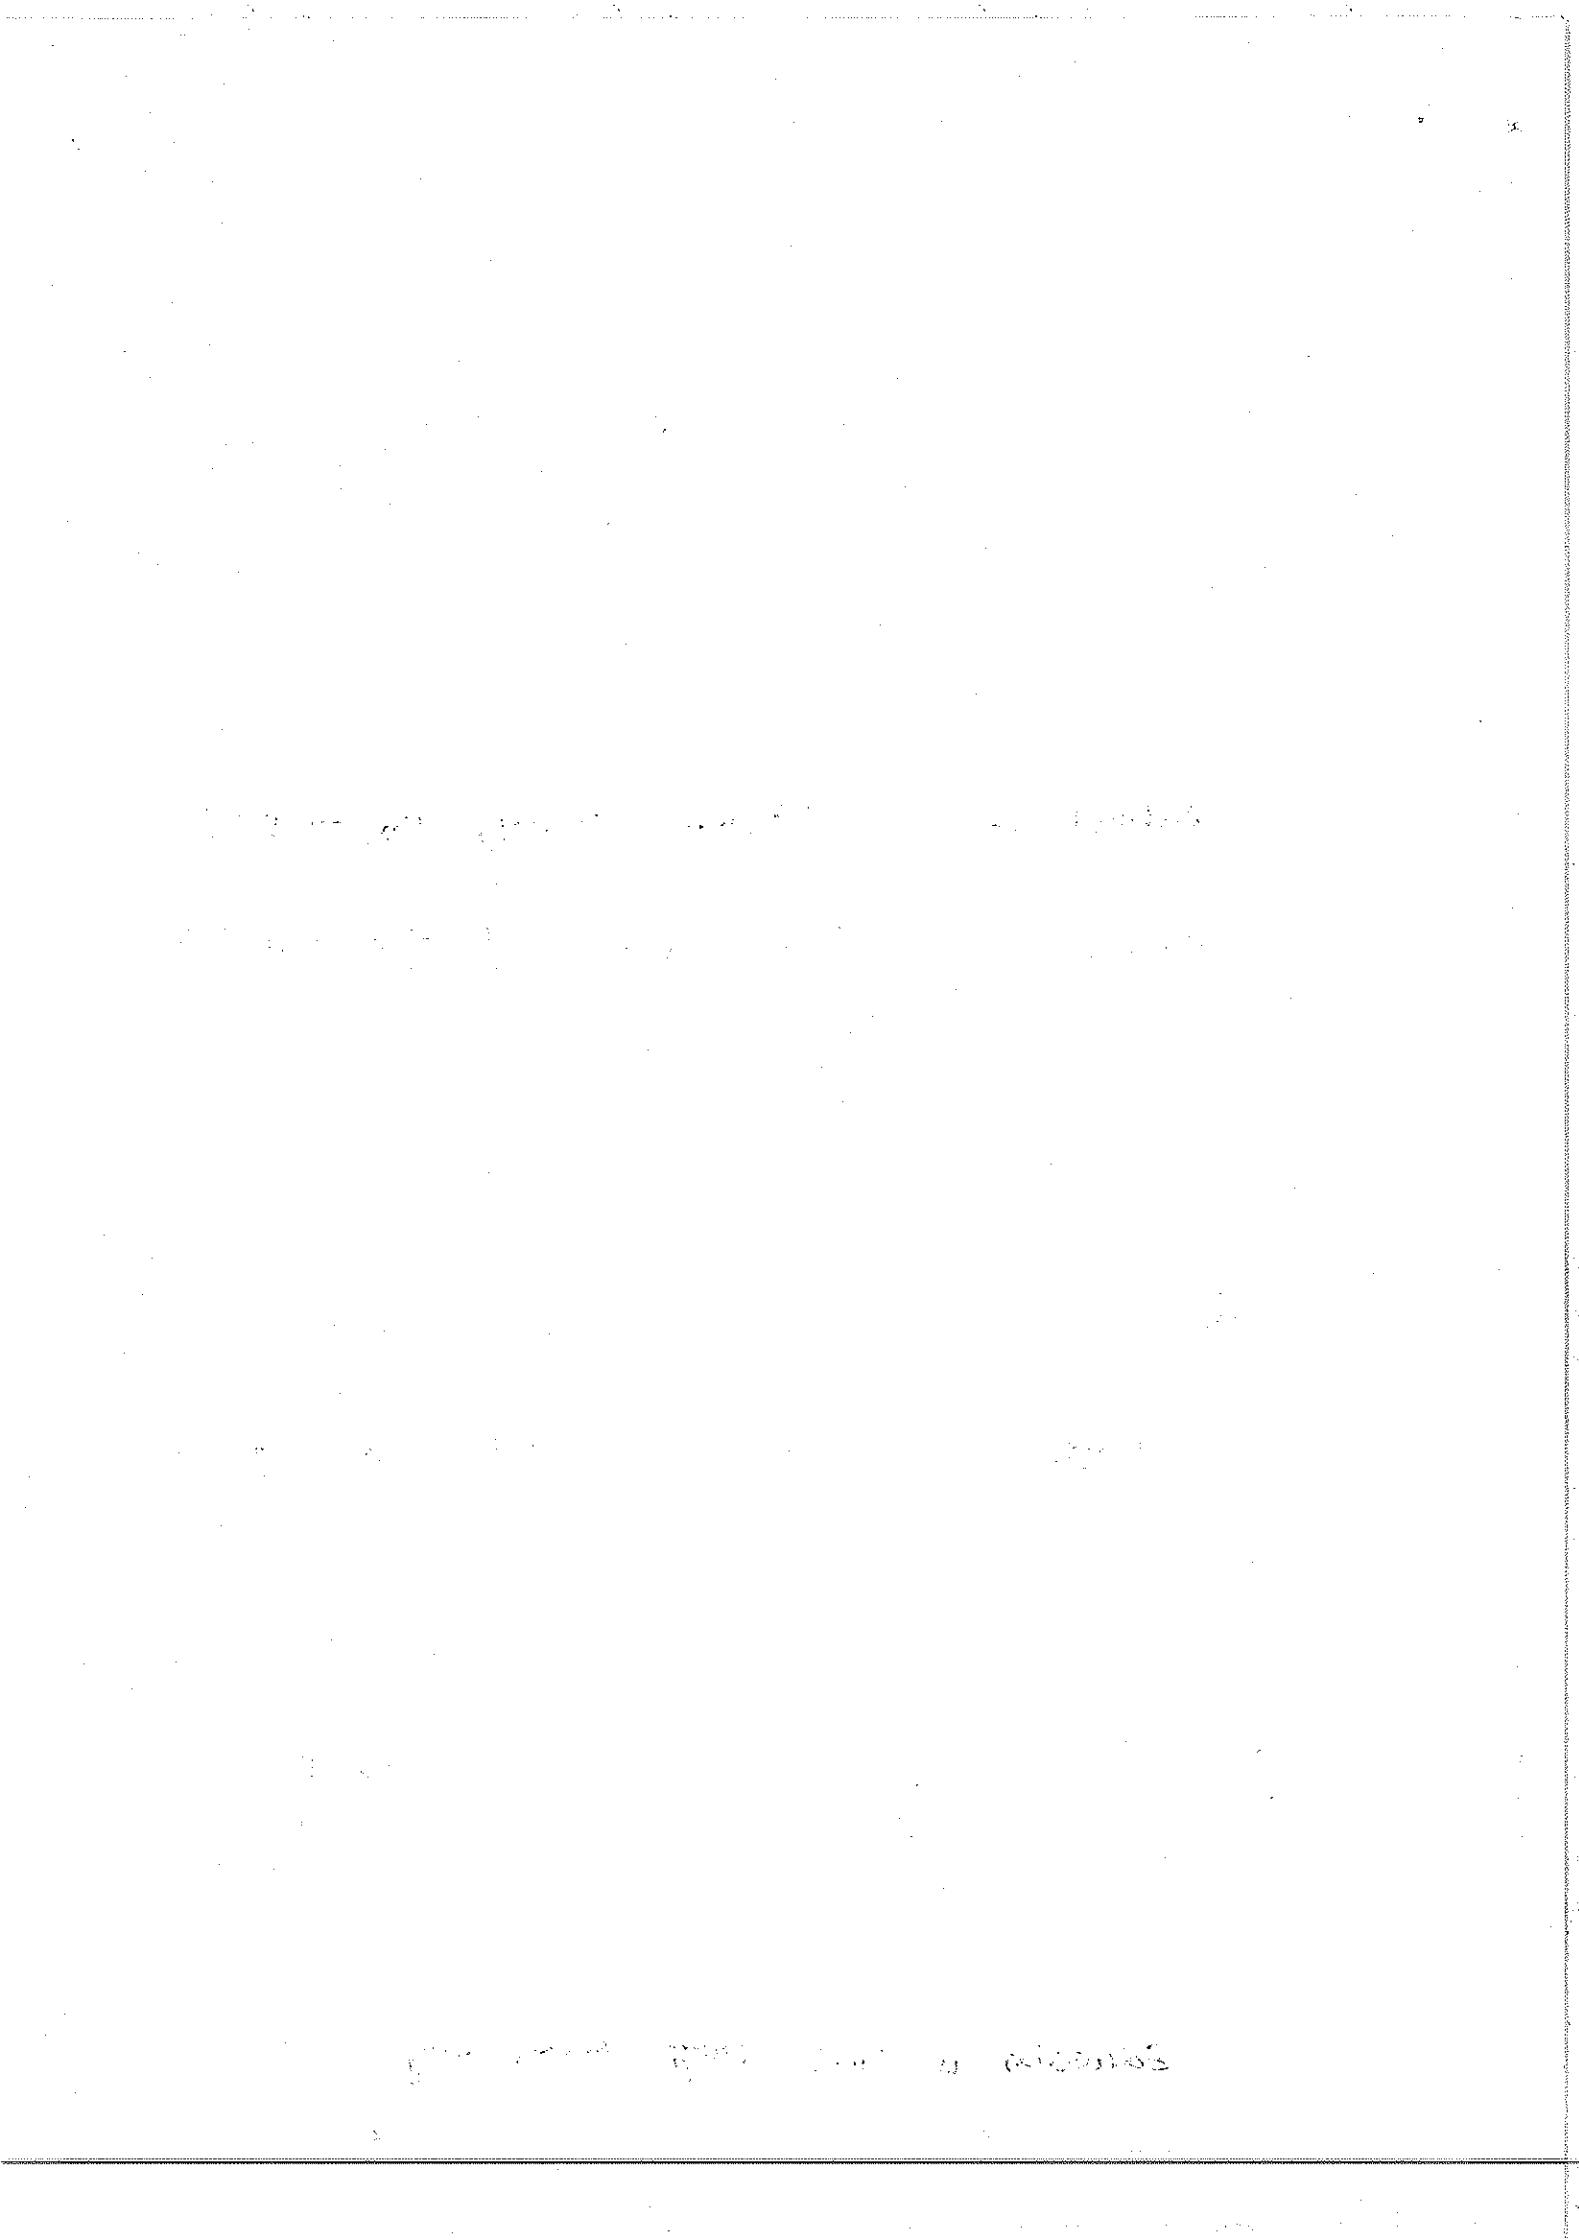

Principles According to the 43rd Article below 14 years children have the right to provide of free and compulsory education learning Out comes:

- Government provided some schools like Alternative schools, Mobile schools, child labour schools, to provide education for all and equal opportunities rather than the caste, place, religion, oppressed people and to provide scientific technology.
- The main theme of establishing these schools are the results of education is to provide for all the students
- To change the illiterates into literates.

⑨

Conclusion:

In this activity I explained the schools like alternative schools, Night schools Child labour schools are helpful in the providing of education which have no chances to study basing on their status, financial and social imbalances, health, and handicapped.

Activity-II

Conduct a Survey of schools of different quality in different and make a presentation.

Introduction:

School is a miniature Society. So that in the society and likewise all the traditions and cultures are appear in the school. The tradition which is followed in society are followed in miniature society called school. In school all the students in the school are close together with the feeling of brotherhood, patience of other religion and excuseness ... so that the values are inculcated in the students. So that the cultural aspects of the tradition are to be developed.

Education is the thing based only on the cultural and traditions of the society. Education is

of quantitative and the quantitative education is provided in every school and to improvement as citizens. Not only that and it should be eliminated as the poor in the society. 164

Activity-III

A critical review of school Text Books based on Socio-cultural and economic exclusion.

Introduction:

Culture is a part of our Human society life. For every society in the world there is a special culture. There are some specialities in the culture and traditions, habits and daily life routine. So that there are different culture namely Indian culture, China culture and America culture - .

The are sub culture in the mostly big societies of and in the country like India. These are different from main culture.

Eg:- Andhra culture, Telangana culture, Marata, Tamil... even though these unitedly called as Indian culture.

The results of Scientific Technology, entertainments, Reforms, stories of literature and music are received by the members of society. They

encourage and imitate them.

The life style of Humans and thoughts, literature and so on are expressed by the culture.

Culture is the combination of all values, rules, traditions, science, beliefs.

Curriculums are prepared on the basis of Educational Values. Text Books have to be prepared according to the Curriculum. Text books reflect the culture.

The examples which are given to the explain the aspects of topic are related to surrounding environment. So that financial culture, society culture shows their impact on the making of Text Books. Mostly we cannot prepare the books without the impact of languages and social studies.

In every situation culture is reflected in the text books.

Without the cultural traditions the life of the society is zero. So that cultural aspects should be included in the textbooks.

Activity IV

Conduct a Survey on street children/ orphan children and make a presentation

Introduction!

In our country there is no situation of saying that Today's children are tomorrow's citizens. because child labour is heavy in our country which are working in Hotels, streets -

When compared to other states in our country In

A.P it is the major problem. Orphans and selling of childs are more in our state so that

Our government arranged a separate part to

protect child rights. It's a challenge for our

society about Orphans and street children.

When a society is to become a complete

cultured society it is only possible when the

orphans and street children are none then only

it becomes a great cultured society.

Objective:

To prepare a report on street children, and Orphans aspects by making a Survey.

Aims:

- To know the situations of Orphans and street children.
- To conduct Survey on orphans and street children.
- To explain the responsibilities of society and government about orphans and street children.
- To know the problems and damages if they come into society.

Street children:-

The people & children who don't have standard residence and living on Railway stations, Bustand's Temples --- are called street children

These street children are divided into '3' categories namely

- 1) People live and with family working on streets.
- 2) People living on streets on their own.
- 3) Children do not have relation with their family working as orphans.

There are nearly 100 millions of children belongs to the street by the document of UNO.

The problems belonged to them are listed as follows

- Childrens separated from home.
- financial problems
- working as labours

The people rotte on streets by the negligence of family members. It becomes heavy and turn Children to do illegal works and addict them to drugs.

35

the problems that are faced by children turning them as street children.

1) Right for Food:

These children have no healthy food so they face problems of development.

2) Right for Health:

These children can't follow cleanliness. So it leads to health problems. These problems show impact on physical, mental, development of children.

3) Right for Education:

These people have no chance to get education.

4) Right for equality:

These are problematic to the society in unofficial programmes.

Orphan children:

children ^{doesn't} who ~~don't~~ have parents and who brought up by none are called Orphans. Orphans are not only as children they are also adults.

To concentrate on Orphans govt started homes and trusts for their nourishing responsibilities.

According to the UNO 2007 numericals there are 25 millions in our country.

For the welfare of street children and Orphans the programmes taken by the govt and trusts.

To recognise and identify the children roving on village roads of villages, towns and are taken up to centres of related like Balasadan and admitting them. For this there is a special team. In Ongole one Balasadan is in Ram Nagar.

Responsibility of society:

At first one city is elected for to recognise orphans and street children for the first time in Brazil Country.

For these students a special school is to established and healthy food is given and provide facilities for education.

In Our Country also political parties, govt can be built up on one stage for the welfare of orphans and street children. The student studying degree has to participate in the revolution. Additional marks should be added for participating in this revolution.

Bala Sadan is located at Ramnagar in Dangole.

Rules for Organising Balasadan:

- It is organised for and under the ministry of child Development scheme.
- In Balasadan 8-10 yrs and 16 yrs children have to inculcate a different and special situations.
- For the welfare of children centre is arranged by the government.
- The information of children should be kept secretly.
- special Counciling were given.
- provide facilities for education.

Learning Out comes:

By this Activity I visited the Balasadan and street children, Orphans and know the Committee and taking responsibility for the life of children.

→ To know the Balasakti centres how they helpful for the society to develops in the their field of citizen by providing education.

Conclusion:

To prepare a document and making a survey on orphans , street children By this activity and submit it.
