

Genie+ and Lightning Lanes ✨

Lightning Lane (LL) is a separate line for attractions which allows you to bypass the standby queue and reduces your overall wait time. Each Lightning Lane selection you make will allow you a one hour return window on the day you are visiting. **Genie+** gives you the ability to secure LL return times on a broad selection of attractions (subject to availability). If you have park hopper tickets, you can use Genie+ across multiple parks per day. There are also some attractions that have an a la carte priced LL.

All LL selections drop at 7 am each day and are selected by going to the Tip Board in the My Disney Experience app. Both Genie+ and a la carte priced LL are accessed in the Tip Board. For subsequent LL, there are two ways to select:

- Tap & Grab - make your next selection after redeeming a LL ("tapping in")
- Cooling off period - make another selection two hours after making your most recent selection, starting two hours after official park opening. *Example:* if the selection you made at 7 am isn't scheduled until 12:00 pm, but the park opens at 9:00am, you may select another LL beginning at 11:00 am. When in doubt: try to make another selection in the Tip Board. The app will alert you to your next eligible selection time.

To redeem a LL selection, tap your magic band, ticket, or magic mobile at the entrance of the LL queue. Some LL queues require dual scans: one at the entrance and one further down the line.

More about Genie+ ✨

Stacking selections: you may hold multiple LL return windows (for different attractions) at one time. This comes in to play primarily with "cooling off period" selections where you might have overlapping times for midday.

If your LL selection conflicts with a dining reservation or another scheduled experience, visit a Guest Experience cast member to resolve it. They can be found under large blue umbrellas at kiosks throughout the theme parks.

Genie+ also gives you access to fun PhotoPass filters and audio tales; these features can be found in the My Disney Experience app. Be sure to check them out!

One attraction at each theme park has an a la carte priced LL that is not part of Genie+. You can purchase two of these Individual LL each day. Those who park hop can purchase across multiple parks, but only two per day. Pricing differs by attraction and date.

Individual Lightning Lanes available for purchase: Avatar: Flight of Passage (Animal Kingdom); Guardians of the Galaxy: Cosmic Rewind (Epcot); Seven Dwarfs Mine Train (Magic Kingdom); Star Wars: Rise of the Resistance (Hollywood Studios)

WALT DISNEY WORLD

- o Seven Dwarfs Mine Train
- o TRON Lightcycle/Run

VIRTUAL QUEUE

- o TRON Lightcycle/Run

Helpful tips

- o If you have issues with your Genie+ and/or Individual Lightning Lanes, visit a Guest Experience team to resolve the problem; look for the large blue umbrellas throughout the park
- o Utilize mobile order for your quick service meals; select a return window and build your order early in the day so you know you've got a spot at your preferred time and location
- o When park hopping, remember that it does not begin until 2:00 pm
- o Strollers will be left at parking lots near attractions. Can't find your stroller after your ride? Don't panic! It was likely moved by a Cast Member but should still be in the stroller parking lot

Extra magic to check out

Photos

- At the parks icons
 - Cinderella Castle
 - Spaceship Earth
 - Tower of Terror
