

## Financial Obligations 2022-2023

The All-Star package for the 2022-2023 season is listed below, and our season cost may be comparable to other teams, but our program offering is more valuable to the athletes, parents, and community. We are motivated for our All-Star teams to be differentiated. Cost, value, coaches, and programs form the foundation of us molding our athletes to be known as “BlackWatch Built”.

**Photography Package-** All-Star parents will have digital access to download and use photography from 3+ competitions in addition to receiving 1 individual print and 1 team photo.

**Physical Therapy-** Services are provided by Dr. Shelley Anderson with BlackWatch Performance and Therapy that include the following throughout the season.

- Unlimited, onsite acute injury screening
- Taping and bracing as needed at practices and competitions
- Immediate and emergency care if needed during practices
- Baseline concussion screenings in pre-season
- Free concussion screening follow-up if injured throughout season
- Guaranteed physical therapy appointment within 24 hours of injury
- Guaranteed orthopedist scheduling (if needed) within 48 hours of injury
- Free entry into “Recovery Redefined Event” June 11-12, 2022 (\$50 value)

**Tumble-Fit-** This is a required class for our All-Star athletes and will be a differentiator to other programs. In this class, trainers focus on muscle groups required to make a tumbler stronger. For the first part of class, athletes will be using body weight-based movements and small weights. The remaining time is focused on tumbling technique. This strength class in conjunction with a regular tumbling not only produce results of more muscle and endurance, there’s also an improvement in technique and skill because the athletes have more confidence with strength gains.
