"Frontman Anthony White possesses a keen grasp of what makes a great song." Sentinel Daily

Las Vegas Rockers GENERATION LANDSLIDE sign with RFK MEDIA

Generation Landslide, led by former MCA recording artist/singer/guitarist Anthony White, has officially signed with Ron Keel's RFK Media to deliver their new album "Existence;" plans are also underway to reissue the band's acclaimed 2022 debut, "Ruling The Street Scene."

Based in Las Vegas, Generation Landslide has proven their appeal coast to coast in, from a co-headline spot at the M3 Festival Pre Party in Columbia, Maryland to the legendary Whisky A Go Go in Hollywood.

Anthony White's rock roots run deep. He powered Xcursion with bandmate Mark Slaughter prior to the singer's platinum success with Slaughter, was a member of the first officially sanctioned KISS tribute band Cold Gin with future KISS guitarist Tommy Thayer and signed with MCA Records as a founding member of Cold Sweat.

“The whole idea is to try and bring back all those elements of listening to an album from top to bottom, taking the fans on a musical journey,” explains White. RFK Media’s Aaron Fischer describes Generation Landslide’s sound as “arena rock, heavily influenced by early KISS, Thin Lizzy, and Alice Cooper, which we love.”

Generation Landslide also features Sandy Stein (lead guitar), Jonathan Swanson (bass), and Lisa Carver (drums).

The new album is in the final stages of mixing – this landslide can’t be stopped or ignored, just cranked up and enjoyed.
