This ambitious project features entirely all-new brand-new music from Keel’s notable projects Ron Keel Band, Steeler, Keel, IronHorse, Emerald Sabbath, and solo material. RFK Media emphasizes that these are *not* leftovers from the vault or previously unreleased tracks – KEELWORLD consists totally of fresh songs (except for the Black Sabbath cover) and new recordings that capture the original style and spirit of the bands on the track list.

Two singles have already been released: “The Last Bottle On Earth” (Ron Keel Alone/Acoustic) and the Ron Keel Band’s “Hard On The Outside (Heart On The Inside),” which has achieved airplay on SiriusXM and rocketed to #1 on the 97underground.com radio chart.

The new Keel classic “Moving Target” (the first new song from that band in almost 15 years) will be available as an instant download with the iTunes pre-order of KEELWORLD July 5th.

And the first new Steeler track in over 40 years, “Give Me Guitars (Or Give Me Death),” will be accompanied by a big-budget music video directed by David Pear (The Dead Daisies), to be released in conjunction with the Black Friday blue vinyl edition.

ALSO AVAILABLE: the Limited Edition “Director’s Cuts” DigiPak which includes the same comic booklet plus two bonus tracks. The DigiPak version is offered free exclusively to All Access members at <http://patreon.com/ronkeel>.

“KEELWORLD is a unique ride across all the musical landscapes I’ve called home the past five decades – from the heavy metal jungle to the red dirt roads of country music,” Ron explains. “As diverse as the songs are, even with the stark contrast between styles, the album has a cohesive sonic identity, and the pieces fit together just as I hoped they would.”
