

Centerpro Systems | UL 1741 Listing

UL File No. E536475 | 1500V DC Solar Combiner Configurations

Description

UL 1741 covers equipment used with distributed energy resources, including renewable energy systems. At Centerpro, this listing supports 1500V DC solar combiner configurations used in solar projects where dependable electrical packaging, field-ready documentation, and repeatable manufacturing are essential.

Who It Serves

This listing is most relevant for solar EPCs, renewable energy developers, electrical contractors, distributors, and utility-scale project teams sourcing balance-of-system equipment.

How Centerpro Supports the Work

Centerpro Systems supports UL 1741 solar combiner projects with project review, component coordination, enclosure support, labeling and nameplate support, documentation support, turnkey manufacturing, and product support.
