

# Centerpro Systems | UL 508A Listing

UL File No. E530644 | Industrial Control Panels

## Description

UL 508A covers industrial control panels used to control machinery, motors, pumps, skids, automation systems, and other process equipment. For buyers, this listing signals that the panel is built under a recognized framework for component selection, layout, labeling, wiring methods, and documentation.

## Who It Serves

This listing is especially relevant for OEMs, contractors, plant engineers, system integrators, and maintenance teams that need dependable custom control panels for real-world industrial applications.

## How Centerpro Supports the Work

Centerpro Systems supports UL 508A control panel projects with engineering review, component coordination, enclosure and back-plate support, nameplates, documentation support, turnkey manufacturing, and product support.

## What to Send for a Quote

- Drawings or schematics
- Bill of materials
- Voltage / phase / load details
- Enclosure or environment requirements
- Quantity and needed delivery date
