

# Centerpro Systems | UL 891 Listing

UL File No. E548635 | Switchboards, Dead Front

## Description

UL 891 covers dead-front switchboards used for low-voltage power distribution. This listing is important for projects that require organized, durable switchboard assemblies for commercial, industrial, utility, and distribution-related electrical applications.

## Who It Serves

This listing is most relevant for electrical contractors, facility managers, industrial plants, utility teams, engineers, project managers, OEMs, and procurement groups responsible for power distribution equipment.

## How Centerpro Supports the Work

Centerpro Systems supports UL 891 switchboard projects with project review, component coordination, enclosure and labeling support, documentation support, turnkey manufacturing, and practical support from quote through delivery.

## What to Send for a Quote

- One-line diagram
- Project drawings and ratings
- Breaker or metering requirements
- Enclosure or space constraints
- Quantity and needed delivery date
