

## Mission Statement

At Saving Grace Animal Rescue and Sanctuary Inc. our primary goal is to bring awareness to the profound link between animal abuse and neglect and child abuse, as research consistently shows that these forms of maltreatment often coexist within families. By fostering a deeper understanding of this correlation, we strive to break the cycle of violence and promote healthier environments for both children and animals.

Additionally, we are dedicated to alleviating the strain on overpopulated animal shelters by providing compassionate care, rehabilitation, and finding loving forever homes for abandoned and forgotten animals. Through our adoption programs and responsible pet ownership initiatives, we aim to reduce the number of animals in shelters, ensuring they have the opportunity to live fulfilling lives with caring families.

Our work extends beyond rescue and rehoming animals. We recognize the therapeutic benefits of the human-animal bond and actively promote animal-assisted interventions and therapy. By partnering with mental health professionals, educators, and community organizations, we seek to harness the healing power of animals to support the emotional well-being and resilience of children who have experienced trauma or neglect.

Through collaborative efforts, community engagement, and ongoing research, we strive to raise awareness about the impact animal abuse and neglect on both human and animal lives. By addressing these intertwined issues, we envision a future where every child and animal can thrive in safe and nurturing environments.

Join us in our mission to create a world where the compassionate treatment of animals and the protection of children go hand in hand, inspiring a more empathetic and harmonious society for all.

We are a non for profit 501c3 organization.
