**SANDVIK**

**coromant**

**HARVEY TOOL**

**HAIMER**

## Vending/ Integration/ Partnership

We combine the latest technology with old fashioned knowledge and experience to tailor fit a total vending solution for you. Free shipping and stocking/monitoring of inventory means that tools are where and when you need them. Reporting is data rich and always available which allows us to predict your needs, lower your overhead and eliminate waste. We have a team of people monitoring upcoming, ongoing, and outgoing projects to ensure that new tools are available on time and that obsolete tools are phased out and no longer stocked.

**We look forward to hearing about the challenges you face and working together to create a system that solves them.**
