

Certificate in Common Health Conditions Level 2

This qualification is designed for learners looking to increase their understanding of common health conditions and their effects on individuals. This course is ideal for anyone working in, or looking to work in, health and social care settings.

What knowledge will be gained?

This course offers an opportunity to increase your understanding of how you can contribute to monitoring the health of individuals suffering from health conditions. You will gain an awareness of some common health conditions and the impacts these can have on individuals as well as understand the support available.

How is the course assessed?

You will receive an information pack and the resource to enable you to give written responses to questions in a work booklet, either handwritten or typed depending on your preference.

What are the benefits?

- *Achieve a nationally recognised Level 2 qualification
- * Further your personal and professional development
- *Increase your knowledge and awareness
- *Gain positive working relationships
- *Improve your interpersonal skills
- * Learn at a time that suits you without the need to attend college

What will be studied?

The course is split into 6 units:

Unit 1: Understand How to Contribute to Monitoring the Health of Individuals Affected by Health Conditions

Unit 2: Introductory Awareness of Sensory Loss

Unit 3: Stroke Awareness

Unit 4: Physical Disability Awareness

Unit 5: Arthritis Awareness

Unit 6: Parkinson's Disease Awareness

Who can apply?

Courses are funded for people who are aged 19 years or over, have lived in England for the past 3 years and who are not currently accessing any other government funded training.
