

Understanding End of Life Care Level 2

The aim of this qualification is to provide learners with the necessary knowledge and understanding of this sensitive time of life by exploring key topics such as the support needed to manage pain and discomfort, how dementia impacts on end of life care and the process of loss and grief.

What knowledge will be gained?

This course offers an opportunity to increase your understanding and knowledge of the key principles of end of life care and how different values and beliefs can affect care needs. The course looks at different approaches within society, managing pain and discomfort and develops awareness of relevant guidelines when working with an individual during the end of life. The course explores the actions to be undertaken to respect dignity whilst upholding values held by family and cultural beliefs which must be carried out within the limits of legislation guidelines and the care environment.

How is the course assessed?

You will receive an information pack and the resource to enable you to give written responses to questions in a work booklet, either handwritten or typed depending on your preference.

What are the benefits?

- *Achieve a nationally recognised Level 2 qualification
- * Further your personal and professional development
- *Increase your knowledge and awareness
- * Learn at a time that suits you without the need to attend college

What will be studied?

The course is split into 5 units:

Unit 1: Understand how to work in the end of life care

Explores the learner's knowledge and understanding when beginning to work in end of life care.

Unit 2: Understand how to provide support to manage pain and discomfort

Explores the knowledge and skills to provide support for managing pain and discomfort.

Unit 3: End of life care and dementia

Explores how the condition of dementia impacts on an individual's end of life care.

Unit 4: Understanding the role of the care worker in time of death

Explores the role of the care worker at the time of death.

Unit 5: Understand loss and grief in end of life care

Explores the processes of loss and grief and their impact on the individual receiving care, significant others and care workers.

Who can apply?

Courses are funded for people who are aged 19 years or over, have lived in England for the past 3 years and who are not currently accessing any other government funded training.
