

Health & Safety in the Work Place Level 2

The aim of this qualification is to provide learners with knowledge of the basic health and safety practices essential in the workplace.

What knowledge will be gained?

The qualification provides learners with an understanding in the responsibilities of employers and employees, the benefits of good health and safety, steps to a risk assessment and how they can reduce accidents, near misses and ill-health, typical hazards and controls in a workplace, common causes of accidents, near misses and ill-health, emergency procedures and the importance of recording accidents, near misses and ill-health.

How is the course assessed?

Certification is dependent on successful continuous learning and assessment during the day. You will need to attend for the full day and complete a multiple choice knowledge assessment.

What are the benefits?

- *Achieve a nationally recognised Level 2 qualification
- * Further your personal and professional development
- *Increase your knowledge and awareness
- * Learn life-saving skills
