

To Tzvika,

It is my pleasure to provide this letter of recommendation for DefandU, a reseller with whom CYTRIX LTD has had the privilege of collaborating. As one of the founders of CYTRIX LTD and the CEO, a new SaaS company specializing in cybersecurity, I have been thoroughly impressed by DefandU's professionalism, expertise, and ability to deliver outstanding results, bringing more than a few wins within the first quarter of our collaboration.

DefandU has demonstrated a profound understanding of the cybersecurity field. Their knowledge of industry trends, challenges, and client needs is exceptional, and they have leveraged this expertise to effectively communicate the value of our SaaS solutions to prospective clients. In a highly technical and rapidly evolving domain like cybersecurity, this depth of knowledge has been instrumental in building trust and credibility with customers.

DefandU's commitment to excellence and their ability to independently drive significant business outcomes make them an invaluable partner, with significant wins that pushed our brand forward. I have no doubt that their professionalism and expertise will continue to yield exceptional results for any organization they choose to work with.

I wholeheartedly recommend DefandU to any company seeking a skilled and knowledgeable reseller in the cybersecurity space. Should you require any additional information or wish to discuss their contributions further, please do not hesitate to contact me directly.

On a personal note, Tzvika the founder is a super professional individual, he is working super closely with me and our team and takes an active part in our company's advisory board.

Sincerely,

Omer Shirazi
Co-Founder & CEO
CYTR/IX LTD
