K•CRAFT

THE PADDLING PERFORMANCE OF A KAYAK, THE STABILITY OF A SUP, AND THE RANGE OF A POWERED SKIFF CREATE A NEW LIGHTWEIGHT CLASS ENTIRELY.

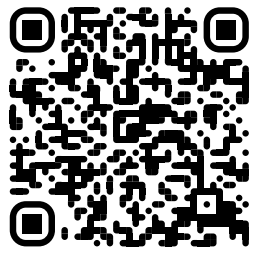

We blended a low profile, shallow draft, and open layout into a lightweight, rigid platform. Built for paddling, casting, and motoring. Loaded with features, this portable paddleskiff™ was designed to traverse lakes, rivers, and shallow flats along coastal areas. Infinitely customizable and remarkably versatile, the K•Craft is truly in a class of its own.

LT ULTRALITE®

A PATENTED HULL SYSTEM THAT FEATURES A FULL-LENGTH KEEL DESIGN IN A COMPACT DESIGN THAT DOES NOT COMPROMISE STABILITY OR PADDLING PERFORMANCE.

The UltraLite's lightweight construction makes it easily transportable to remote locations, and its compact design is maneuverable in small, tight areas creating a kayak ideal for creeks, rivers, and bays. The performance and comfort found in the UltraLite make this an excellent kayak for anglers and non-anglers alike. Small, fun, and as close to the fish as possible, this is UltraLite fishing.

LT LITE TACKLE II®

THE LITETACKLE II BUILDS ON THE CLEAN, REFINED DESIGN OF ITS PREDECESSOR THROUGH NEW FEATURES, FUNCTIONALITY, AND MOLDED-IN INNOVATION.

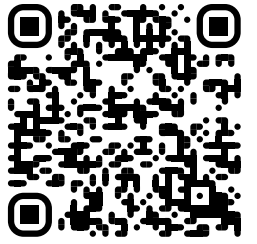

This second generation of our flagship model has been five years in the making, drawing inspiration from the Crescent Community. A kayak's spirit is the way it performs and interacts with the water which is why the LiteTackle II was built on the same patented hull design as the original LiteTackle. Whether you're an avid angler or always looking for adventure, the LiteTackle II was designed for you.
