RESERVE PINOT NOIR

This pristine Pinot Noir from vineyards within both Carneros and Russian River offers complex nuances and textures, expressing aromas of classic red cherry, strawberry rhubarb pie and spices. On the palate, delicately woven layers of rose petals, violets and luscious plum gracefully connect with an abundance of dark cherries, blueberries, and red raspberries; Our latest Pinot Noir release is lush, medium bodied and ideal for drinking now and over the next seven years.

Vineyard plantings lending to a pinot noir of complexity and depth.

Dijon Clone 667 Big, tight compact cluster about the same size as 777, strong color, hi-tone and quality aromas, dark cherry, raspberry, strawberry, spice flavors, fleshy, firm, angular, thick but soft tannin. You'll find deep Christmas spice mix (allspice, nutmeg, clove) in our cooler sites

Dijon 777 Small, compact cluster, small berries, low-yielding, strong and intense color due to thick skins and higher seed count, very aromatic with dense and complex black fruit flavors (black cherry, cassis), with leather, tobacco, and earthy notes. Can be a powerful, monster of a wine almost Cabernet-like if not carefully farmed. Highly structured with tannin structure to age.

Dijon 943 Very small berries (among the smallest of all the Dijon clones), low seed counts, small clusters (smaller than clones 115 and 777), more open bunches, low yields, higher sugar content, intense flavors of red berry fruit.

Calera 115 Consistently produces wines of impressive aroma, structure and balance showing cherry fruit with hints of leather and roses. Contributes to acidity and aromatics.

Calera 459 Excellent balance and tannin

Clone 828 Ripens later than the others dark, succulent, with blackberry and dark cherry character.

Pommard UCD 4 Dark pure fruit with some earth and meaty tones which also lends spice and velvety texture.
