Copenhagen / Malmö — March 31, 2026

Hymeth announces leadership team changes effective April 1st

Hymeth announces a series of organizational updates within its leadership team to support the company's continued growth, operational scalability and strategic execution.

As part of these changes, Hymeth extends its deepest gratitude to Mats Blacker, who is retiring after a distinguished career and valuable contributions to the company. Mats dedication and commitment have had a lasting impact on Hymeth's development. The entire organization thanks Mats for years of service and wishes him all the best in his retirement.

In alignment with the updated leadership structure, Joel Eriksson, formerly the company's Chief Financial Officer (CFO), assumes the role of Chief Commercial Officer (CCO). Joel's transition into this position reflects the company's strategic focus on commercial expansion, customer partnerships and market development. With Joel's deep understanding of Hymeth's technical and operational landscape, the company is well-positioned to strengthen its commercial reach and accelerate business growth.

To ensure continuity and strong financial leadership, Hymeth welcomes Frida Bergqvist, who joins the company as Senior Business Controller. Frida brings valuable experience in financial oversight, performance management and strategic analysis, capabilities that will play a key role in supporting Hymeth's operational and commercial ambitions.

"These organizational changes reinforce Hymeth's commitment to building a strong, future-focused leadership team," says Anders Johansson, CEO of Hymeth. "I am grateful for Mats many contributions, excited to see Joel take on new responsibilities and pleased to welcome Frida to the team. This strengthened structure supports Hymeth's next phase of growth and innovation."

Hymeth continues its mission to deliver advanced, high-efficiency hydrogen production technologies that enable a cleaner, more sustainable energy future. Strengthening the leadership team ensures the company is well prepared to meet increasing market demand and deliver exceptional value to partners and customers.
