Hymeth appoints Peter Timring as new Chief Operating Officer (COO)

Hymeth, a clean-tech frontrunner developing high-efficiency alkaline electrolyzers, announces the appointment of Peter Timring as the company’s new Chief Operating Officer (COO), effective April 1st. Peter will play a central role in scaling Hymeth’s operations as the company accelerates commercialization of its electrolysis technology and solutions.

With a strong track record in industrial operations, strategic execution and organizational leadership, Peter brings extensive experience from global clean-tech and advanced manufacturing environments. His appointment marks an important step in strengthening Hymeth’s operational framework and supporting its growth trajectory.

“We are very pleased to welcome Peter to Hymeth,” says Anders Johansson, CEO of Hymeth. “His deep operational expertise, hands-on leadership style and commitment to sustainable industrial innovation make him an ideal fit for our mission. As Hymeth expands production capacity and enters new markets, Peter will be instrumental in driving operational excellence across the company.”

In his role as COO, Peter will oversee day-to-day operations, production scale-up, supply chain optimization and cross-functional execution of Hymeth’s strategic initiatives. He will also support the continued maturation of the company’s product platforms as Hymeth prepares for increased customer deployments.

“I am excited to join Hymeth at such a pivotal time,” says Peter Timring. “Hymeth’s patented technology positions the company at the forefront of the green hydrogen transition. I look forward to working closely with the team to build robust operational capabilities that ensure quality, reliability and scalability for our customers.”

Hymeth continues to advance its mission of delivering compact, efficient and cost-effective hydrogen production systems for industrial, e-fuel and other applications. Peter’s appointment supports the company’s ambition to become a key global contributor to the decarbonization of hard-to-abate sectors.

Peter Timring, new COO of Hymeth
