

# SILENCE DURING A GENOCIDE IS COMPLICITY!

- When over 51,000 people in Gaza are brutally killed, including 15,000 children;
- When 90% of the housing infrastructure in Gaza is destroyed, displacing 2 million people;
- When over 2 million people are starving, thirsty and demoralized;
- When Israel blocks food, medicine, and humanitarian aid, making conditions deplorable;
- When hospitals, schools, religious sites, businesses, and libraries are bombed; and
- When genocide, ethnic cleansing, and apartheid are happening before our eyes.

## AMERICANS SPEAK OUT!

- When our government spends our tax dollars to fund Israel's genocide of Palestinians in Gaza;
- When our government will not pressure Israel to end its brutal occupation of Palestine;
- When our government ignores Israel's cruel apartheid policies against the Palestinians.
