

The Latest Technology In
Powder Coating

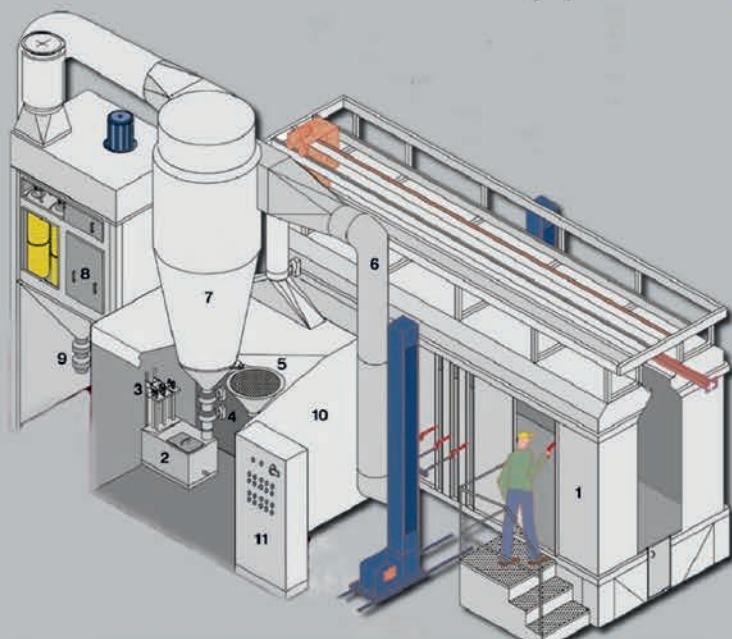

EIC - POWDER BOOTH

BOOTH Type S.E.P

1. Powder loading
2. Recovery and feeding Tank with Sieve
3. "Venturi" spray-guns supply pumps
4. Self-cleaning overspray suction circuit
5. Self-cleaning cyclone Unit
6. Filter with automatic cleaning
7. Waste power collection bucket
8. Silencer
9. Control panel

BOOTH Type C.E.P

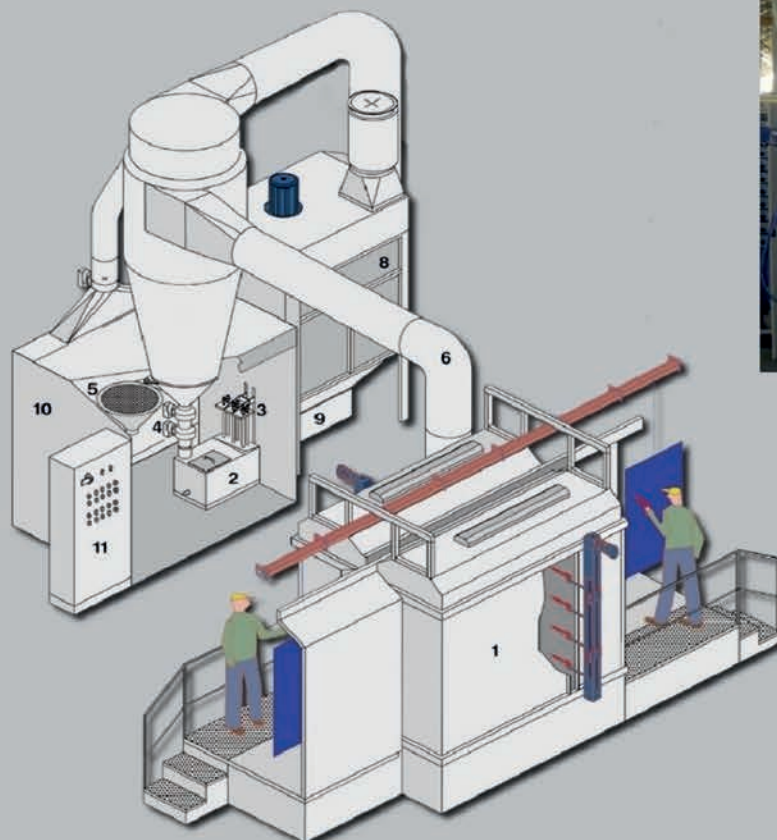

1. Powder Coating Enclosure
2. Recovery and feeding Tank
3. Self-cleaning Dip tube Unit
4. Automatic discharge peristaltic Valve
5. Pneumatic sieve Cone
6. Self-cleaning overspray suction circuit
7. Self-cleaning Cyclone Unit
8. Self-cleaning Filter
9. Automatic discharge Valve to BigBag
10. Sucking cleaning Box
11. Electric and pneumatic Panel

EIC - POWDER BOOTH

BOOTH Type E.E.P

1. Powder Coating Enclosure
2. Recovery and feeding Tank
3. Self-cleaning Dip tube Unit
4. Automatic discharge peristaltic Valve
5. Pneumatic sieve Cone
6. Self-cleaning overspray suction Circuit
7. Self-cleaning Cyclone Unit
8. Automatic cleaning Filter
9. Waste power collection bin
10. Sucking cleaning Box
11. Electric and pneumatic Panel

POWDER BOOTH
Conformity to EC 89/392
and
ATEX 94/9/EC rules
