

# ACTION FILTRATION

## Cartridge Filters

Action Filtration manufactures cartridge filters for every application in every industry, if you need it, Action Filtration can manufacture it.

Action Filtration has the cartridge filters you need!

Action Filtration manufactures both custom and OEM specified cartridge filters guaranteed to match or exceed industry standards. We provide filters for every industry, including OEMs, food processing, chemical processing, industrial plants, powder coating, and concrete applications. To account for the ever changing needs of these industries, Action Filtration provides an expansive choice of medias, including 80/20, Spunbond, Spunbond with PTFE membrane, Nomex and Nanofiber media.

# CARTRIDGE FILTERS

## Nanofiber features and benefits

Nanofiber filtration is the future of dust collection, and Action Filtration offers a wide range of filters using nanofiber media. Cartridge filters that use nanofiber will help your company stay up and running for longer periods of time. Action Filtration's Nanofiber filters offer a longer life, which results in less filters purchased, less labor during change-outs, less production downtime. All of these factors will help your company where it matters most- the bottom line.

## Standard Medias

Media	MERV	Applications
80/20	11	General Dust Collection
Spunbond	12	Concrete, High Moisture, High Abrasion
Nanofiber	15	Plasma, Laser Cutting, Fine Particles
Spunbond PTFE	16	High Moisture, Any Ultra Fine Particles

All medias are MERV rated using ASHRAE 52.2 Standard.

Large inventory for expedited shipping

Thousands of available cartridges

Replacement filters for all major OEMs

Sewing line for filter wraps

Adjustable pleated media

Precision, high quality welding and manufacturing

The filters you need- when you need them!
