

Top Lix HiCal Plus

High Calcium Mineral & Vitamin Horse Lick Block

Top Lix HiCal Plus is a highly mineralised horse specific lick block with good levels of vitamins and key amino acids plus very high levels of Calcium

Bighead, calcium deficiency and osteoporosis are all major problems for horses grazing tropical and sub-tropical grasses. Top Lix HiCal Plus provides plenty of calcium (16%) with possibly the highest levels of all other essential minerals, vitamins and key amino acids found in a lick block, all designed to meet the daily needs of the paddocked horse in areas where more calcium is required.

Top Lix HiCal Plus has all this and only 5% sugars and starch, making it possibly the healthiest horse-specific high calcium lick block available today.

Top Lix is just that! A Top Lick, designed for horses by scientists & nutritionists who know and love horses.

Built for horses by horse people!
