

Planning your next holiday?

Organising currency transfers probably isn't first on your list of things to tick off your holiday checklist, but whether you plan to fill your days with adventure or quality relaxation time, TorFX can help you do more with your money.

It's easy to just accept the rising costs of getting away – but why pay more?

When making foreign payments using your high street bank, you can be faced with non-sterling transaction fees of up to 3% for each transaction and uncompetitive exchange rates. These factors can have a significant impact on the amount you end up paying out, and unnecessary holiday fees can quickly add up.

Whether you're a keen adventurer or a sit-by-the-pool relaxer, TorFX can save you precious relaxation time and money.

Case Study - Planning your next holiday?

CHALLENGE

Every year, Carol and her family plan a skiing trip to Switzerland. She always books the same lodge at the agreed Euro price with the owner. Carol also has to book the airport transfers, ski lift passes and refresher coaching sessions.

Carol had planned to make these payments via her bank as she had assumed the cost of the transfer was just part of the process, and was nervous about looking outside of her usual banking services.

SOLUTION

The lodge owner suggested that Carol used a specialist transfer provider to secure a more competitive exchange rate and save on fees, meaning she could get the most for her money.

Carol called TorFX and explained that she needed to pay an overseas invoice. She was assigned to an Account Manager, who explained how they could arrange to securely pay the invoice directly through TorFX, with no fees and a more competitive exchange rate than what is offered by the banks.

IMPACT

After paying through TorFX, Carol managed to **save over £250**. With the money saved, the family were able to book an extra activity for the holiday.

Carol has now also learned about our rate alert service, so that for future activities abroad she can be ready to act on the market and transfer when the time is right.
