We can accommodate special requests, give us a call!

TERMS AND CONDITIONS

By applying for the Dust Control service, the applicant agrees to adhere to the following terms and conditions set forth by the county and the CIDC:

1-Application Deadline: All applications must be submitted by April 1st, 2025, to ensure the county has adequate time for road preparation before the first application. Late submissions will be scheduled for the second round of service without exceptions.

THIS DOES NOT MEAN POST MARKED!!!! IF IT ENDS UP AT PO BOX AFTER CUTOFF, WE CANNOT ADD YOU, SO GET IT IN EARLY

2-Flagging Responsibilities: Applicants are responsible for maintaining red flags at with correct distance throughout the season. Flags, available at the County Engineer's office or maintenance sheds, must be always visible to avoid grading. If grass has grown around flags and cannot be seen, engineer has right to blade. It also affects the point where spraying starts and stops. If CIDC cannot see flags when spraying, we will determine where to start spraying the applicable feet and will not respray additional areas.

3-Measurement and Adjustment: The applicant is responsible for accurately measuring the application area. CIDC reserves the right to remeasure and adjust the treatment area as necessary. Trucks are equipped with computerized measuring equipment and we will verify distances; inaccurate placement of flags may affect the measured distance.

4-Product Performance: The dust control product is designed for effective dust suppression. However, CIDC does not guarantee performance due to varying factors such as weather conditions, surface preparation, heavy traffic, or county blading activities.

5-Service Agreement: This agreement covers two applications of the dust control product, with application dates depending on county scheduling. Initial application is expected late May/early June, followed by a second application at the end of July/early August. Per Marshall County, the first round of spraying is tentatively scheduled to begin May 27th, subject to weather conditions.

6- Administration/Prep Fee: The Marshall County permit fee is \$50 per application and is included in the price above. For continuous footage between multiple addresses, a single \$50 permit fee applies per group.

7- Roads within the treated area will be bladed after October 1, 2025.
