WE ARE A PROFESSIONAL, FAMILY-OWNED SERVICE COMPANY

Since its founding, Artistic Pools of Florida, Inc. has been a full service, family owned and operated, pool & spa solutions company. From the family's arrival to Clearwater from the Midwest over 50 years ago to the present, the owners have invested themselves in the community raising their children, grandchildren, and now great-grandchildren in the Tampa Bay area.

Our mission has been to work hard to promote tourism and improve the life of residents through expert pool & spa solutions and we have accomplished this well. This success has led to strong growth which has given us the opportunity to bring other leaders into the company to further expand our service and product offerings. Yet, the original founders remain at the heart of the company's success and continue to be involved in its senior management. While other pool company owners have come and gone, some selling out and others just fading away, the team of Artistic Pools of Florida remains as committed and as engaged as ever in providing the best possible service to our clients. We now look forward to the next 50 years with optimism, a commitment to quality solutions, and an appreciation for the opportunity we have been given to serve you.
