

# COVID-19 Response

## Implementing Safe Work Practices in the Field

Contractors Group of Sumner County, LLC is committed to prepare for the effects of COVID-19 and we are taking every step necessary to mitigate the potential harm to our Essential Workers and our clients in Middle Tennessee.

**We also committed to working with our community to implement sanitation improvements to homes. We are now offering complete Home Disinfection using products recommended by OSHA to kill Covid-19 and other SARS viruses. A 30-45 minute process that is harmless to you or your pets. If you are 65+ and live in Middle Tennessee we would like to offer this to you for FREE.**

**If you would like more information on this service or would like to know how you can help with this community effort please click the CONTACT US tab at the top of the page. More information will be made available on our website in the coming days as well.**

**Here are the Guidelines we have recently implemented as a team for anyone considering projects to be completed in the near future:**

- **Only authorized visitors allowed on site-** Both the Client and Contractor Group mutually understand that no one is aloud on site unless prior written or verbal authorization is given until all work is completed. All vendor deliveries must be pre scheduled.
- **All Supervisors and workers have been properly trained in our COVID-19 procedures which include:**
  1. Work areas will be closed off from the rest of the home using plastic zip wall coverings provided by Contractors Group with only one private door dedicated for entry and exit of the home/work area with sanitizer readily available before entry. Authorized personal are not aloud in any other area of the home for any reason.
  2. Porta John services will be provided for all future projects starting after 4/13/2020 unless a bathroom in the home is in the same work area and approved by the client prior to start. The Porta John is for Contractors Group personal use only. Sanitation equipment will be provided by Contractors Group and is the responsibility of authorized workers and visitors to maintain on a per use bases.
  3. All tools, work surfaces and areas will be cleaned and disinfected daily with Contractors Group provided sanitation equipment. All clients are encouraged to stay clear of the dedicated work areas until after this process is completed. (Please understand workers are not able guarantee they will maintain social distancing with each other while working in groups of 2 or 3 and this is why we recommend to keep the work area clear and closed off for everyone's safety unless absolutely necessary)
  4. M95 Masks, gloves, and other PPE if necessary will be provided and worn when available, especially when anyone has to leave the job site and enter a public facility where 6' social distancing may be difficult or where 10 or more people may be present such as a build supply store, gas station, etc.

The safety of our employees, their family, and our clients will always be the top priority. We encourage our entire team as well as clients to maintain social distancing and avoid social gatherings, and wash their hands even outside of their work environment so that everyone remains healthy and work can continue to be done.
